Cautionary Statements

Caution Regarding Forward Looking Statements

This presentation contains forward-looking statements. These forward-looking statements are not based on historical facts, but rather on current expectations and projections about future events. These forward-looking statements are subject to risks and uncertainties. These risks and uncertainties could cause actual results to differ materially from the future results expressed or implied by the forward-looking statements.

Such risks may include, without limitation: risks and uncertainties relating to foreign currency fluctuations; risks inherent in mining including environmental hazards, unusual or unexpected geological formations, ground control problems and flooding; risks associated with the estimation of mineral resources and reserves and the geology, grade and continuity of mineral deposits; the possibility that future exploration, development or mining results will not be consistent with the Company's expectations; the potential for and effects of labor disputes or other unanticipated difficulties with or shortages of labor or interruptions in production; actual ore mined varying from estimates of grade, tonnage, dilution and metallurgical and other characteristics; the inherent uncertainty of production and cost estimates and the potential for unexpected costs and expenses; and commodity price fluctuations.

For further details of other risks and uncertainties see Risk Factors Relating to the Company's Business in the Company's Annual Information Form and in each management discussion and analysis.

Highlights

- **Net Income \$317.1 million (\$0.55 p/share), well ahead of last year's \$73.7 million (\$0.13 per share)**
- **Average metal prices 24% to 48% higher than last year. Euro 4% weaker, SEK 6% stronger (annual averages) against US dollar.**
- **Production below prior year** owing to: industrial action at Neves-Corvo (estimated 10,000 tonnes) at start of 2010; and closure of Galmoy in mid-2009.
- **Tenke now consistently above design capacity.**
- In October 2010, the government of the DRC announced the **conclusion of the review of Tenke mining contracts.**
- **New hi-grade massive sulphide discovery at Neves-Corvo – copper rich**
- **Net cash increased by over \$200 million during year (excluding \$118.7 million reduction on Tenke EOC)**
- **Lundin Mining and Inmet announce merger to form Symterra**

- 2010 includes \$5.1 million pre-tax exchange loss (2009, gain of \$14.4 million)

Financial Position

- Net cash at December 31, 2010 of \$159.2 million, an increase of \$33.5 million for the quarter and \$208.5 million for the year.
- The change in net cash during the year takes into account:
 - \$83.8 million proceeds from the sale of AFS securities and investments
 - \$129.8 million of capital expenditure
 - \$30.5 million advanced in respect of Tenke
 - \$23.6 million of exploration
- Operating cashflow of \$277.3 million during the year compared to \$137.4 million last year.
- As at February 21, net cash on hand of \$265 million

Outlook

- **Production guidance for 2011 unchanged (lower C1 at Zinkgruvan)**
- **Plans for 2011 indicate: copper production of 110,000 tonnes, including our attributable share of Tenke; zinc production of 120,000 tonnes; and lead production of 44,000 tonnes.**
- **Capex guidance for 2011 around \$290 million: sustaining \$100 million; new investment \$70 million; Tenke \$120 million**
- **Exploration/resource evaluation estimated at \$38 million for 2011. Approx. \$20 million to investigate Semblana; \$4 million seismic at Neves-Corvo looking for further sulphide deposits**
- **Symterra Corporation: shareholder vote scheduled for March 14**

Symtterra: Established Mines, 2 World Class Growth Projects

- Production potential 200kt copper, 185kt zinc, 44kt lead production for 2011
- Operations and projects could drive production growth to > 500kt* of copper by 2017

* Based on Cobre Panama assumed production and adding the attributable share (24%) from Tenke Fungurume expansions as per Lundin internal forecasting.

Symterra: New Canadian Senior Growth Story

- Strong cash flow from portfolio of low cost, long life producing mines
- Two world class development projects
- Cash resources in excess of \$1.3 billion and strong ongoing cash flow
- Leading copper growth profile
- High leverage to copper
- Diversified metal production
- Shared value of corporate responsibility as a competitive advantage
- Significant market cap and liquidity
- Combined strengths of Board and management teams
- Support of major shareholders
