Cautionary Statements

Caution Regarding Forward Looking Statements

This presentation contains forward-looking statements. These forward-looking statements are not based on historical facts, but rather on current expectations and projections about future events. These forward-looking statements are subject to risks and uncertainties. These risks and uncertainties could cause actual results to differ materially from the future results expressed or implied by the forward-looking statements.

Such risks may include, without limitation: risks and uncertainties relating to foreign currency fluctuations; risks inherent in mining including environmental hazards, unusual or unexpected geological formations, ground control problems and flooding; risks associated with the estimation of mineral resources and reserves and the geology, grade and continuity of mineral deposits; the possibility that future exploration, development or mining results will not be consistent with the Company's expectations; the potential for and effects of labor disputes or other unanticipated difficulties with or shortages of labor or interruptions in production; actual ore mined varying from estimates of grade, tonnage, dilution and metallurgical and other characteristics; the inherent uncertainty of production and cost estimates and the potential for unexpected costs and expenses; and commodity price fluctuations.

For further details of other risks and uncertainties see Risk Factors Relating to the Company's Business in the Company's Annual Information Form and in each management discussion and analysis.

- Q1'11: Aguablanca operating loss of \$7.4 (Q1'10: profit of \$25.0 million)

Financial Position

- Net cash at March 31, 2011 of \$262 million, an increase of \$100 million for the quarter and \$250 million from the same quarter last year.
- The change in net cash during the year takes into account:
 - \$18.6 million cash outflow at Aguablanca for the quarter
 - \$40.5 million of capital expenditure
 - \$5.4 million advanced in respect of Tenke
 - \$6.1 million of exploration
- Operating cashflow of \$129.3 million compared to \$88.4 million last year
- Net cash at May 9, 2011 of \$332 million

Outlook

- **Production targets** remain unchanged: 79,400t copper, 120,000t zinc and 44,000t lead. Plus Tenke attributable: 31,200 tonnes of copper
- **Cost guidance maintained** except Neves-Corvo increases from \$1.30/lb to \$1.40/lb of copper
- **Aguablanca restart likely:** investment of €40 million (€25 million in 2011) representing all operating expenditure plus an estimated €4 million capital expenditure. The operating expenditure will be expensed as incurred
- **Neves-Corvo zinc to resume in Q3 2011** at rate of 50,000 tpa
- **Capex guidance for the year unchanged at \$290 million** including: \$100 million sustaining capital; \$70 million new investment in Europe; and up to \$120 million for Tenke
- **Exploration/resource evaluation unchanged** at around \$40 million
