May 18, 2007

To our shareholders,

On April 11, 2007, Lundin Mining announced that the Corporation intends to enter into a business combination with Tenke Mining Corp. The combination of the two companies will form a leading intermediate base metals company with a global portfolio of world-class production, development and exploration assets.

The acquisition of Tenke is the next step in establishing Lundin Mining as a major global mining house. The Tenke Fungurume copper/cobalt project is one of the world's richest and largest new copper developments and adding Tenke's 24.75% interest in that project to Lundin Mining's existing asset base will enhance Lundin Mining's position as a company with a strong balance sheet, world class assets and an extensive life expectancy as a result of its reserves and resources.

The transaction between Lundin Mining and Tenke is conditional upon the approval by a majority of the votes cast by Lundin Mining shareholders at the Lundin Mining shareholders' meeting, and by two-thirds of the votes cast by Tenke shareholders at the Tenke shareholders' meeting. Both shareholder meetings will be held on June 18, 2007 and the transaction is expected to close by the end of June (with an effective date of July 3, 2007). Upon completion of the transaction, existing Lundin Mining and Tenke shareholders will hold approximately 73% and 27% of the Corporation, respectively, and Tenke will be a wholly-owned subsidiary of the Corporation. Further details about the transaction can be found in the accompanying management information circular and joint disclosure booklet of Lundin Mining and Tenke.

The Board of Lundin Mining unanimously recommends that you vote in favour of the transaction. The Corporation's largest shareholder group, the Lundin family interests, have pledged their full support.

To ensure your vote is received, please complete and return the enclosed proxy or voting instruction form as soon as possible. These forms have instructions on how they are to be completed, where they are to be returned and the deadline for depositing. If you have any questions concerning how to complete and return the proxy or voting information form, please contact our proxy solicitation agent, Georgeson Shareholder Communications Canada Inc., at 1-866-690-7478 or the Corporation at 604-689-7842.

We are excited by Lundin Mining's continued growth and development, and by the potential for the Tenke Fungurume Project and are convinced that Lundin Mining can play an important role in the development of that project. We would encourage all of Lundin Mining's shareholders to demonstrate their continued support for the Corporation and its management by approving this transaction.

Yours sincerely

INFORMATION CIRCULAR
(as at May 18, 2007, except as indicated)

Introduction

This Circular is furnished in connection with the solicitation of proxies by and on behalf of the management of Lundin Mining for use at the Meeting and any adjournments thereof. No person has been authorized to give any information or make any representation in connection with the Arrangement or any other matters to be considered at the Meeting other than those contained in this Circular and, if given or made, any such information or representation must not be relied upon as having been authorized.

All summaries of, and references to, the Arrangement in this Circular are qualified in their entirety by reference to the complete text of the Business Combination Agreement, dated April 10, 2007, and the Plan of Arrangement. A copy of the Business Combination Agreement is available on the SEDAR website at www.sedar.com. A copy of the Plan of Arrangement is attached as Schedule B to this Circular. **You are urged to carefully read the full text of the Plan of Arrangement.**

All capitalized terms used in this Circular but not otherwise defined herein have the meanings set forth in the Glossary. Information contained in this Circular is given as of May 18, 2007 unless otherwise specifically stated.

Forward Looking Statements

This Circular, the Joint Disclosure Booklet and the documents incorporated by reference herein and therein contain forward-looking statements. All statements other than statements of historical fact contained in this Circular, the Joint Disclosure Booklet and the documents incorporated by reference herein and therein are forward-looking statements, including, without limitation, statements regarding the future financial position, business strategy, proposed acquisitions, budgets, litigation, projected costs and plans and objectives of or involving Lundin Mining or Tenke. Lundin Mining Shareholders can identify many of these statements by looking for words such as “believes”, “expects”, “will”, “intends”, “projects”, “anticipates”, “estimates”, “continues” or similar words or the negative thereof.

These forward-looking statements include statements with respect to: the anticipated benefits to Lundin Mining of the Arrangement, completion of the Arrangement and timing of the Effective Date, fluctuation of mineral prices, foreign currency fluctuations, the estimation of mineral reserves and resources, the realization of mineral reserve estimates, the timing and amount of estimated future production, costs of production, capital expenditures, costs and timing of the development of new deposits, success of exploration activities, permitting time lines, requirements for additional capital, political risks, statutory and regulatory compliance, changes to laws, regulations and permits governing operations and activities of mining companies, industrial accidents, labour disputes, environmental risks, unanticipated reclamation expenses, title disputes or claims, limitations on insurance coverage, repatriation of earnings to Canada from other jurisdictions, dependence on key management employees, conflicts of interest, significant and increasing competition in the mining industry and stock price and volume volatility. There can be no assurance that the plan, intentions or expectations upon which these forward-looking statements are based will occur. Forward-looking statements are subject to risks, uncertainties and assumptions, including those discussed elsewhere in this Circular and the Joint Disclosure Booklet. Although Lundin Mining believes that the expectations represented in such forward-looking statements are reasonable, there can be no assurance that such expectations will prove to

be correct. Please refer to the risk factors set forth under “The Arrangement – Risk Factors” in this Circular, under “Risk Factors” in the Lundin Mining Annual Information Form dated March 31, 2007 and under “Risk Factors” in the Tenke Annual Information Form dated March 20, 2007. Readers should not place undue reliance on forward-looking statements.

The mineral resource figures disclosed in, or incorporated by reference into, this Circular and the Joint Disclosure Booklet are estimates and no assurances can be given that the indicated levels will be produced. Such estimates are expressions of judgment based on knowledge, mining experience, analysis of drilling results and industry practices. Valid estimates made at a given time may significantly change when new information becomes available. While Lundin Mining believes that the resource estimates disclosed in this Circular are well established, by their nature resource estimates are imprecise and depend, to a certain extent, upon statistical inferences which may ultimately prove unreliable. If such estimates are inaccurate or are reduced in the future, this could have a material adverse impact on Lundin Mining.

Mineral resources are not mineral reserves and do not have demonstrated economic viability. Measured and indicated mineral resources are sufficiently well defined to allow geological and grade continuity to be reasonably assumed and permit the application of technical and economic parameters in assessing the economic viability of the resource. Inferred mineral resources are estimated on limited information not sufficient to verify geological and grade continuity or to allow technical and economic parameters to be applied. Inferred mineral resources are too speculative geologically to have economic considerations applied to them to enable them to be categorized as mineral reserves. There is no certainty that mineral resources can be upgraded to mineral reserves through continued exploration.

The forward-looking statements contained herein and the Joint Disclosure Booklet are expressly qualified in their entirety by this cautionary statement. The forward-looking statements included in this Circular and the Joint Disclosure Booklet are made as of the date of this Circular and, except as required under applicable securities laws, Lundin Mining undertakes no obligation to publicly update such forward-looking statements to reflect new information, subsequent events or otherwise.

Notice to United States Shareholders

Information concerning the properties and operations of Lundin Mining and Tenke contained in this Circular and in the Joint Disclosure Booklet has been prepared in accordance with Canadian disclosure standards, which is, in some cases, materially different than similar information disclosed by U.S. companies. In particular, the terms “Mineral Resource”, “Measured Mineral Resource”, “Indicated Mineral Resource” and “Inferred Mineral Resource” used in this Circular and in the Joint Disclosure Booklet are Canadian mining terms as defined in accordance with National Instrument 43-101, Standards of Disclosure for Mineral Projects, of the Canadian Securities Administrators (“**NI 43-101**”) under the guidelines set out in the Canadian Institute of Mining, Metallurgy and Petroleum (the “**CIM**”) Standards of Mineral Resources and Mineral Reserves Definitions and guidelines adopted by the CIM Council on August 20, 2000.

While the terms “Mineral Resource”, “Measured Mineral Resource”, “Indicated Mineral Resource” and “Inferred Mineral Resource” are recognized and required by Canadian regulations, they are not recognized by the SEC and U.S. companies are generally prohibited from using such terms, or disclosing information about Mineral Resources, in documents filed with the United States Securities Exchange Commission (the “**SEC**”). As such, certain of the information contained in this Circular and in the Joint Disclosure Booklet concerning descriptions of mineralization and resources under Canadian standards is not comparable to similar information made public by U.S. companies subject to the

reporting and disclosure requirements of the SEC. “Mineral Resources” have a great amount of uncertainty as to their existence and a great uncertainty as to their economic and legal feasibility. Investors are cautioned not to assume that any part or all of mineral deposits in these categories will ever be converted into reserves.

The definition for “Proven Mineral Reserves” under CIM standards differs from the SEC standards, where proven or measured reserves are defined as reserves in which: (a) quantity is computed from dimensions revealed in outcrops, trenches, workings or drill holes; (b) grade and/or quality are computed from the results of detailed sampling; and (c) the sites for inspection, sampling and measurement are spaced so closely and the geographic character is so well defined that size, shape, depth and mineral content of reserves are well established.

The definition for “Probable Mineral Reserves” under CIM standards differs from the SEC standards where probable reserves are defined as reserves for which quantity and grade and/or quality are computed.

SUMMARY INFORMATION

Capitalized terms not otherwise defined in this Summary are defined in the Glossary or elsewhere in this Circular. This Summary is qualified in its entirety by the more detailed information appearing or referred to elsewhere in this Circular or the Joint Disclosure Booklet.

The Meeting

Date, Time and Place

The Meeting will be held at Oak Room, Four Seasons Hotel, 791 West Georgia Street, Vancouver, British Columbia on June 18, 2007 at 2:00 p.m. (Vancouver time).

Record Date

The Record Date for determining the registered Lundin Mining Shareholders for the Meeting is April 20, 2007.

Purpose of the Meeting

At the Meeting, Lundin Mining Shareholders will be asked to consider and, if deemed advisable, to pass, resolutions approving those matters set out in the Notice of Meeting, including the Share Issue Resolution.

Each matter to be considered at the Meeting, including the Share Issue Resolution, requires the affirmative vote of not less than a majority of the votes cast by Lundin Mining Shareholders who vote in respect thereof, in person or by proxy, at the Meeting.

If approved by the Lundin Mining Shareholders at the Meeting, the Share Issue Resolution will authorize the Corporation to issue up to an aggregate of approximately 105,508,079 Lundin Mining Shares to Tenke Shareholders in exchange for all of the outstanding Tenke Shares pursuant to the Arrangement, including up to 1,362,375 Lundin Mining Shares for issuance upon the exercise of New Lundin Mining Options issued to holders of outstanding Tenke Options. No fractional Lundin Mining Shares will be issued in connection with the exchange. Instead, fractional Lundin Mining Shares will be rounded down to the nearest whole number and Tenke Shareholders who are otherwise entitled to a fractional Lundin Mining Share will receive cash in lieu thereof.

Following the completion of the Arrangement former Tenke Shareholders will own approximately 26.67% of the then outstanding Lundin Mining Shares and Lundin Mining Shareholders will own approximately 73.33% of the then outstanding Lundin Mining Shares, on a non-diluted basis.

Lundin Mining is not required under applicable corporate or securities legislation or the rules of the TSX or AMEX to obtain the consent of the Lundin Mining Shareholders to complete the Arrangement or to issue the Lundin Mining Shares to Tenke Shareholders under the Arrangement. However, the Board of Lundin Mining determined that, given the commonality of directors and principal shareholders between Lundin Mining and Tenke, approval of the Lundin Mining Shareholders should be sought as a matter of good corporate governance.

It is a condition to the completion of the Arrangement in favour of Tenke that the Lundin Mining Shareholders approve the Share Issue Resolution at the Meeting. If the Share Issue Resolution is not approved by the Lundin Mining Shareholders at the Meeting, either Lundin Mining or Tenke may terminate the Business Combination Agreement, and upon such a termination Lundin Mining will be required to pay Tenke a termination fee of \$3.0 million. See “The Arrangement – The Business Combination Agreement – Termination of Business Combination Agreement/Payment of Termination Fee”.

The Arrangement

Lundin Mining has agreed with Tenke under the Business Combination Agreement to acquire, pursuant to the Plan of Arrangement, all of the outstanding Tenke Shares in exchange for 1.73 Lundin Mining Shares and \$0.001 for each Tenke Share acquired, representing aggregate consideration of approximately \$1.4 billion for the Tenke Shares, based on Lundin Mining’s 20 day volume weighted average trading price of \$13.51 per share as at April 10, 2007.

Upon completion of the Arrangement:

- Tenke will be a wholly-owned subsidiary of Lundin Mining and will cease to be a public company;
- each Tenke Option outstanding immediately before the Effective Date will be exchanged for an option to be issued by Lundin Mining (a “**New Lundin Mining Option**”) pursuant to which the holder will be entitled to receive, upon exercise of the New Lundin Mining Option, that number of Lundin Mining Shares that is equal to the number of Tenke Shares that was issuable upon exercise of the Tenke Option immediately before the Effective Time multiplied by the Exchange Ratio. The exercise price per Lundin Share under the New Lundin Mining Option will, subject to adjustment, be equal to the quotient obtained by dividing the exercise price per share of the Tenke Option in effect immediately prior to the Effective Time, by the Exchange Ratio and each Tenke Option will expire on the earlier of the original expiry date and 180 days after the optionee ceases to be eligible to hold options under the Tenke Option Plan;
- assuming there are 60,199,829 Tenke Shares issued and outstanding at the Effective Time and outstanding Tenke Options in respect of 787,500 Tenke Shares, Lundin Mining will issue approximately 104,145,704 Lundin Mining Shares to acquire the Tenke Shares and reserve approximately 1,362,375 Lundin Mining Shares for issuance upon exercise of New Lundin Mining Options. Upon completion of the Arrangement, there will be, using Lundin Mining’s issued share capital as at May 18, 2007, approximately 390,473,400 Lundin Mining Shares issued and outstanding;
- Tenke will continue to hold all of its mineral properties, cash and assets, except for US\$5.0 million in cash and the South American Assets, which will be transferred as part of the Arrangement to Suramina Resources Inc. (“**Suramina**”), a wholly-owned subsidiary of Tenke incorporated by Tenke for the purpose of the Arrangement, all of the shares of which will be distributed to Tenke Shareholders prior to completion of the Arrangement;
- the Subsidiaries of Tenke (other than Suramina and its Subsidiaries that own directly or indirectly, the South American Assets) will remain as Subsidiaries and related corporations of Tenke, such that Lundin Mining will own Tenke’s interest in the Tenke Fungurume Project; and

- Paul K. Conibear, the current President and Chief Executive Officer of Tenke, will join Lundin Mining in a senior management position responsible for managing Lundin Mining's interest in the Tenke Fungurume Project and will also serve as President and Chief Executive Officer of Suramina.

Lundin Mining has covenanted under the Business Combination Agreement that, within 30 days following the Effective Date, it will amalgamate Lundin Mining or a wholly-owned subsidiary of Lundin Mining that is a disregarded entity for U.S. tax purposes with Tenke.

See "The Arrangement" for additional information. Full particulars of the Arrangement are contained in the Plan of Arrangement which is attached to this Circular as Schedule B.

Tenke holds a 24.75% interest in the Tenke Fungurume copper/cobalt deposits (the "**Tenke Fungurume Project**") located in Katanga Province in the Democratic Republic of Congo. Tenke's operating partner, Freeport-McMoRan Copper & Gold Inc. (formerly, Phelps Dodge Corporation), holds a 57.75% interest and La Générale des Carrieres et des Mines, the Democratic Republic of Congo state mining company, holds the remaining 17.5% interest.

Construction is in progress on the project, which entails an open pit mining operation producing initially 115,000 tonnes per annum ("**tpa**") of London Grade A quality copper cathode and 8,000 tpa of cobalt in any combination of cobalt metal or intermediate cobalt hydroxide. Site infrastructure and process facility layouts have been designed for significant future potential expansions.

The Tenke Fungurume Project concessions, encompassing over 1,500 square kilometers, have extensive exploration potential across the project area and a significant drilling program is in progress to potentially add further proven/probable, high-grade ore reserves to the mine plan and for a potential major plant expansion in the early years of the project. In June 2006, Tenke disclosed the following results from an independent resource estimate of the Tenke Fungurume copper/cobalt concessions, prepared in accordance with NI 43-101 by independent qualified persons John Nilsson, P.Eng. of Nilsson Mine Services Ltd. and Abdullah Arik, B.Sc.M.Sc. of Mintec Inc. Their report dated May 20, 2006 is available under Tenke's profile on the SEDAR website at www.sedar.com.

Benefits of the Arrangement

The Board of Directors concluded that a combination with Tenke would be in the best interest of both Lundin Mining and the Lundin Mining Shareholders. In reaching its conclusion and making its recommendation, the Board of Directors considered the advice of its financial and legal advisors, the recommendation of the Special Committee and other considerations, including the following:

- it will result in Lundin Mining owning a 24.75% interest in the Tenke Fungurume Project, one of the world's richest and largest new copper/cobalt projects;
- in will significantly increase the Corporation's production and geological resource profile and reduce its cost profile for copper production; and

- it will provide the Corporation with exposure to exploration opportunities in the Democratic Republic of Congo and other areas in the region.

See “Arrangement – Reasons for the Arrangement and Recommendations of the Board of Directors”.

Fairness Opinion

The Special Committee of the Board of Directors retained GMP Securities to address the fairness of the Arrangement, from a financial point of view, to the Lundin Mining Shareholders.

The GMP Fairness Opinion, the complete text of which is attached to this Circular as Schedule C, concludes that, based upon and subject to the factors referred to therein, as of April 10, 2007, the Arrangement was fair, from a financial point of view, to the Lundin Mining Shareholders. The Fairness Opinion is subject to certain assumptions and limitations contained therein and should therefore be read in its entirety. See “Arrangement – Fairness Opinion”.

Lundin Mining Following the Arrangement

Following the Arrangement, Lundin Mining will have a market capitalization of approximately \$5.3 billion, based on the closing price of the Lundin Mining Shares on the TSX on April 10, 2007. It's common shares will continue to be listed on the TSX and AMEX and its Swedish Depositary Receipts will continue to be listed on the SSE.

Upon completion of the Arrangement, Tenke will be a wholly-owned Subsidiary of Lundin Mining and Lundin Mining will own Tenke's interest in the Tenke Fungurume Project. Former Tenke Shareholders will own approximately 26.67% of the then outstanding Lundin Mining Shares and Lundin Mining Shareholders will own approximately 73.33% of the then outstanding Lundin Mining Shares on a non-diluted basis. Former Tenke Shareholders will own approximately 26.75% of the then outstanding Lundin Mining Shares and Lundin Mining Shareholders will own approximately 73.25% of the then outstanding Lundin Mining Shares, on a fully diluted basis.

See “Information Concerning Lundin Mining Corporation and Tenke Mining Corp. following the Arrangement” in the Joint Disclosure Booklet.

Recommendation of the Special Committee

The Board of Directors appointed the Special Committee to consider, assess and examine any transaction whereby Lundin Mining would acquire the outstanding shares of Tenke. The Special Committee consists of Mr. Brian Edgar, Mr. David Mullen and Mr. Tony O'Reilly, all of whom are independent with respect to management of Lundin and Tenke. The Special Committee appointed Mr. Edgar as its Chairman. After considering all of the relevant factors known to it and considering the GMP Fairness Opinion, and after discussions with its financial and legal advisors, the Special Committee unanimously resolved to report to the Board of Directors that it had concluded that the Arrangement is fair to, and in the best interests of, the Lundin Mining Shareholders. The Special Committee then further resolved unanimously to recommend to the Board of Directors that it approve the Business Combination Agreement and recommend that the Lundin Mining Shareholders vote in favour of the Share Issue Resolution.

Recommendation of the Board of Directors

The Board of Directors, after consultation with its advisors and the recommendation of the Special Committee of the Board of Directors and considering the conclusions of the GMP Fairness Opinion, has determined that the Arrangement is fair and in the best interests of, the Lundin Mining Shareholders. **The Board of Directors recommends that the Lundin Mining Shareholders vote IN FAVOUR of the Share Issue Resolution.** See “The Arrangement – Reasons for the Arrangement and Recommendations of the Board of Directors”.

Conditions to Completion of the Arrangement; Effective Date

The Business Combination Agreement provides that, in order for the Arrangement to become effective, certain conditions must have been satisfied or waived, including without limitation, the following:

- the Lundin Mining Shareholders must approve the Share Issue Resolution at the Meeting;
- the Tenke Shareholders must approve the Arrangement by a two-thirds majority of the Tenke Shareholders present and entitled to vote at the Tenke Meeting;
- the Lundin Mining Shares to be issued pursuant to the Arrangement will have been approved for listing on the TSX and the AMEX and the Swedish Depository Receipts relating to the Lundin Mining Shares to be issued in connection with the Arrangement will have been listed on the SSE;
- the Court must grant its Final Order with respect to the Arrangement;
- no Material Adverse Change with respect to Tenke or Lundin will have occurred; and
- Dissent Rights must not have been exercised in respect of, in the aggregate, more than 5% of the outstanding Tenke Shares.

See “The Arrangement – The Business Combination Agreement – Conditions to the Arrangement”.

Prior to the mailing of the Circular, the TSX conditionally approved the listing of the Lundin Mining Shares to be issued pursuant to the Arrangement, subject to filing standard closing documents.

Subject to the approval of the Tenke Arrangement Resolution by the Tenke Shareholders at the Tenke Meeting, the hearing in respect of the Final Order is scheduled to take place on June 21, 2007 at 10:00 a.m. (Toronto time) or shortly thereafter. At the hearing in respect of the Final Order, the Court will consider, among other things, the fairness and reasonableness of the Arrangement to Tenke Shareholders. The Court may approve the Arrangement as proposed or as amended in any manner as the Court may direct, subject to compliance with such terms and conditions, if any, as the Court deems fit.

Assuming that the Final Order is granted and the other conditions in respect of the Arrangement as set out in the Business Combination Agreement are satisfied or waived, it is anticipated that the Final Order will be filed with the Director to give effect to the Plan of Arrangement and the various other documents necessary to complete the Arrangement as contemplated under the Business Combination Agreement will be executed and delivered.

It is currently anticipated that the Effective Date of the Arrangement will be on or about July 3, 2007.

Termination; Termination Fees

The Business Combination Agreement provides that it may be terminated in certain circumstances by the Lundin Board or the Tenke Board before the Effective Date notwithstanding approval of the Share Issue Resolution by the Lundin Mining Shareholders or the approval of the Arrangement by the Tenke Shareholders and the Court.

If the Share Issue Resolution is not approved by the Lundin Mining Shareholders at the Meeting, either Lundin Mining or Tenke may terminate the Business Combination Agreement and, upon such a termination, Lundin Mining will be required to pay Tenke a termination fee of \$3.0 million.

In certain circumstances, including if Tenke terminates the Business Combination Agreement to enter into a transaction agreement to effect a Competing Proposal, Tenke is required to pay Lundin Mining a \$30 million termination fee. See “The Arrangement – The Business Combination Agreement – Termination of Business Combination Agreement/Payment of Termination Fee”.

Risk Factors

There are risks associated with the completion of the Arrangement. These risks include, without limitation, the following: (i) market reaction to the Arrangement and the future trading prices of the Lundin Mining Shares cannot be predicted and may be negative; (ii) Lundin Mining may not realize the benefits currently anticipated from the acquisition of Tenke; (iii) there is no assurance that required approvals will be received or other conditions to completion of the transaction will be met; and (iv) the issue of Lundin Mining Shares under the Arrangement and their subsequent sale may cause the market price of the Lundin Mining Shares to decline. See “Arrangement Risk Factors” in this Circular.

In addition, an investment in a natural resource issuer involves a significant degree of risk. Both Lundin Mining and Tenke are subject to a number of risks in the operation of their businesses. Lundin Mining Shareholders should carefully review the risk factors set forth under “Risk Factors” in the Tenke Annual Information Form dated March 20, 2007 and under “Risk Factors” in the Lundin Annual Information Form dated March 31, 2007, which are incorporated by reference into the Joint Disclosure Booklet.

GENERAL PROXY INFORMATION

Solicitation of Proxies

The information contained in this Circular is furnished in connection with the solicitation by management of the Corporation of proxies for use at the Meeting to be held at Suite 2101, 885 West Georgia Street, Vancouver, British Columbia on June 18, 2007 at 2:00 p.m. (Vancouver time), for the purposes set out in the accompanying Notice of Meeting.

Management's solicitation of proxies will primarily be by mail and may be supplemented by telephone or other means of communication to be made without special compensation by directors, officers and regular employees of Lundin Mining. Lundin Mining has retained Georgeson Shareholder Communications (Canada), Inc. ("**Georgeson**") to solicit proxies on behalf of management of Lundin Mining. Lundin Mining will pay Georgeson a proxy solicitation program management fee of \$60,000 and a retail shareholder call fee of \$6.00 per call. In addition, Lundin Mining has agreed to reimburse Georgeson for disbursements where applicable. All solicitation costs will be borne by Lundin Mining.

The information contained in this Circular is given as of May 18, 2007, unless otherwise indicated.

Appointment of Proxyholder

The persons named in the enclosed form of proxy are directors and/or officers of Lundin Mining (the "**Management Proxyholders**"). **A registered shareholder has the right to appoint a person other than one of the Management Proxyholders to represent the registered shareholder at the Meeting by striking out the printed names and inserting that other person's name in the blank space provided. A proxyholder need not be a shareholder. If a shareholder appoints one of the Management Proxyholders as a nominee and there is no direction by the registered shareholder, the Management Proxyholder will vote the proxy FOR all proposals set out in the enclosed proxy form and in this Circular.**

The instrument appointing a proxyholder must be signed in writing by the registered shareholder, or such shareholder's attorney authorized in writing. If the registered shareholder is a corporation, the instrument appointing a proxyholder must be in writing signed by an officer or attorney of the corporation duly authorized by resolution of the directors of such corporation, which resolution must accompany such instrument. **An instrument of proxy will only be valid if it is duly completed, signed, dated and received at the office of the Corporation's registrar and transfer agent, Computershare Investor Services Inc., 9th Floor, 100 University Avenue, Toronto, Ontario, M5J 2Y1, Attention: Proxy Department, no later than 5:00 p.m. (Toronto time) on June 14, 2007 or not less than forty-eight (48) hours (excluding Saturdays, Sundays and holidays) before any adjournment or postponement thereof.**

If you have any questions about the procedures to be followed to vote at the Meeting or about obtaining, completing and depositing the required form of proxy, you should contact Georgeson by telephone (toll free) at 1-866-690-7478.

Voting of Proxies

Common shares of Lundin Mining represented by properly executed proxies in the accompanying form will be voted or withheld from voting on each respective matter in accordance with the instructions of the registered shareholder on any ballot that may be called for and, if the shareholder specifies a choice with respect to any matter to be acted upon at the Meeting, the shares represented by such proxy will be voted accordingly. **If no choice is specified, the person designated in the accompanying form of proxy will vote FOR all matters proposed by management at the Meeting.**

Exercise of Discretion

The enclosed form of proxy, when properly completed and delivered and not revoked, confers discretionary authority upon the person appointed proxy thereunder with respect to amendments or variations to matters identified in the Notice of Meeting, and with respect to other matters which may properly come before the Meeting. In the event that amendments or variations to matters identified in the Notice of Meeting are properly brought before the Meeting or any further or other business is properly brought before the Meeting, it is the intention of the person designated in the accompanying form of proxy to vote in accordance with their best judgment on such matters. As of the date of this Circular, management of Lundin Mining knows of no such amendments, variations or other matters to come before the Meeting.

Voting By Beneficial Shareholders

The information in this section is important to many Lundin Mining Shareholders as a substantial number of Lundin Mining Shareholders do not hold their shares in their own name.

Lundin Mining Shareholders who hold Lundin Mining Shares through their brokers, intermediaries, trustees, or other nominees (such Lundin Mining Shareholders being collectively called “**Beneficial Shareholders**”) should note that only proxies deposited by Lundin Mining Shareholders whose names appear on the share register of Lundin Mining may be recognized and acted upon at the Meeting. If common shares are shown on an account statement provided to a Beneficial Shareholder by a broker, then in almost all cases the name of such Beneficial Shareholder will not appear on the share register of Lundin Mining. Such shares will most likely be registered in the name of the broker or an agent of the broker. In Canada, the vast majority of such shares will be registered in the name of “CDS & Co.”, the registration name of The Canadian Depository for Securities Limited, which acts as a nominee for many brokerage firms. Such shares can only be voted by brokers, agents, or nominees and can only be voted by them in accordance with instructions received from Beneficial Shareholders. **As a result, Beneficial Shareholders should carefully review the voting and instructions provided by their broker, agent or nominee with this Circular and ensure that they direct the voting of their shares in accordance with those instructions.**

Applicable regulatory policies require brokers and intermediaries to seek voting instructions from Beneficial Shareholders in advance of shareholders’ meetings. Each broker or intermediary has its own mailing procedures and provides its own return instructions to clients. The purpose of the form of proxy or voting instruction form provided to a Beneficial Shareholder by such shareholder’s broker, agent or nominee is limited to instructing the registered holder on how to vote such shares on behalf of the Beneficial Shareholder. Most brokers in Canada now delegate responsibility for obtaining instructions from clients to Broadridge Financial Solutions, Inc. (formerly ADP Independent Investor Communication Corporation) (“**Broadridge**”). Broadridge typically prepares voting instruction forms, mails those forms to Beneficial Shareholders and asks those Beneficial Shareholders to return the forms to Broadridge or follow specific telephone or other voting procedures. Broadridge then tabulates the results of all

instructions received by it and provides appropriate instructions respecting the voting of such shares at the Meeting. **A Beneficial Shareholder receiving a voting instruction form from Broadridge cannot use that form to vote their shares at the Meeting. Instead, the voting instruction form must be returned to Broadridge or the alternate voting procedures must be completed well in advance of the Meeting in order to ensure that such shares are voted.**

Revocation of Proxy

A registered shareholder who has returned a proxy may revoke it at any time before it has been exercised. In addition to revocation in any other manner permitted by law, a proxy may be revoked by instrument in writing, including a proxy bearing a later date, executed by the registered shareholder or by his attorney authorized in writing or, if the registered shareholder is a corporation, under its corporate seal or by an officer or attorney thereof duly authorized. The instrument revoking the proxy must be deposited at the registered office of Lundin Mining, at any time up to and including the last Business Day preceding the date of the Meeting, or any adjournment thereof, or with the Secretary of Lundin Mining or the chairman of the Meeting prior to the time of voting at the Meeting. Only registered Lundin Mining Shareholders have the right to revoke a proxy. **Beneficial Shareholders who wish to change their vote must arrange for their respective intermediaries to revoke the proxy on their behalf.**

The Record Date for the meeting is April 20, 2007. At the close of business on the Record Date there were 286,308,656 Lundin Mining Shares outstanding.

Principal Holders of Voting Securities

As at the Record Date, to the knowledge of the directors and officers of Lundin Mining, the only persons or companies that beneficially owned, directly or indirectly, or exercised control or direction over, more than 10% of the votes attached to all of the Lundin Mining Shares then outstanding are as follows:

Name and Address	Number of Shares	Percentage of Issued Capital

Note:

- (1) These shares are held by Ellegrove Capital Ltd., Abalone Capital Ltd., Lorito Holdings Ltd. and Zebra Holdings and Investments Ltd., private corporations owned by trusts whose settlor is the Estate of Adolf H. Lundin.

THE ARRANGEMENT

General

Lundin Mining has agreed with Tenke under the Business Combination Agreement to acquire, pursuant to the Plan of Arrangement, all of the outstanding Tenke Shares in exchange for 1.73 Lundin Mining Shares and \$0.001 for each Tenke Share acquired, representing aggregate consideration of approximately \$1.4 billion for the Tenke Shares. Fractional Lundin Mining Shares will be rounded down to the nearest whole number.

Upon completion of the Arrangement, each holder of a Tenke Option will be entitled to receive, upon the subsequent exercise thereof in accordance with its terms, and will accept in lieu of the number of Tenke Shares otherwise issuable upon such exercise, the number of Lundin Mining Shares which such holder would have been entitled to receive as a result of the transactions contemplated in the Plan of Arrangement if, immediately prior to the Effective Time, such holder had been the registered holder of the number of Tenke Shares to which such holder was previously entitled upon such exercise. Except as otherwise agreed to by Lundin and the holders of Tenke Stock Options, the term of expiry, conditions to and manner of exercising, vesting schedule and all other terms and conditions of such Tenke Options will otherwise be unchanged. Each Tenke Stock Option which, by its terms, would expire up to 90 days after the holder of such option ceased to be eligible to hold options under the Tenke Stock Option Plan, will be deemed to have been amended to provide that such option shall not expire until 180 days after the optionee ceased to be eligible to hold options under the Tenke Stock Option Plan.

Immediately following the Effective Date, Tenke will be a wholly-owned subsidiary of Lundin Mining and Lundin Mining will own the Tenke Fungurume Project.

Upon the completion of the Arrangement, Former Tenke Shareholders will own approximately 26.67% of the then outstanding Lundin Mining Shares and Lundin Mining Shareholders will own approximately 73.33% of the then outstanding Lundin Mining Shares, on a non-diluted basis. (Former Tenke Shareholders will own approximately 26.75% of the then outstanding Lundin Mining Shares and Lundin Mining Shareholders will own approximately 73.25% of the then outstanding Lundin Mining Shares, on a fully diluted basis.)

Lundin Mining has covenanted under the Business Combination Agreement that it will amalgamate Lundin Mining or a Lundin Subsidiary with Tenke within 30 days of completion of the Arrangement.

Approval of the Share Issue Resolution

At the Meeting, Lundin Mining Shareholders will be asked to consider and, if deemed appropriate, to pass, the Share Issue Resolution, the full text of which is reproduced at Schedule A to this Circular, authorizing the issue of up to approximately 105,508,079 Lundin Mining Shares (including up to approximately 1,362,375 Lundin Mining Shares reserved for issuance pursuant to Tenke Options) in connection with the Arrangement.

Lundin Mining is not required under applicable corporate or securities legislation or the rules of the TSX to obtain the consent of the Lundin Mining Shareholders to complete the Arrangement or issue the Lundin Mining Shares to Tenke Shareholders under the Arrangement. However, the Board of Lundin Mining determined that, given the commonality of directors and principal shareholders between Lundin Mining and Tenke, approval of the Lundin Mining Shareholders should be sought as a matter of good corporate governance.

The Board of Directors recommends that the Lundin Mining Shareholders vote IN FAVOUR of the Share Issue Resolution at the Meeting. See “The Arrangement — Recommendation of the Board of Directors”.

To be effective, the Share Issue Resolution must be approved by not less than a majority of the votes cast by the holders of Lundin Mining Shares present in person or represented by proxy at the Meeting. **Unless otherwise indicated, the persons designated as proxyholders in the accompanying form of proxy will vote the Lundin Mining Shares represented by such form of proxy FOR the Share Issue Resolution.**

It is a condition to the completion of the Arrangement in favour of Tenke that the Lundin Mining Shareholders approve the Share Issue Resolution at the Meeting. If the Share Issue Resolution is not approved by the Lundin Mining Shareholders at the Meeting, either Lundin Mining or Tenke may terminate the Business Combination Agreement, and upon such a termination Lundin Mining will be required to pay Tenke a termination fee of \$3.0 million. See “The Arrangement – The Business Combination Agreement – Termination of Business Combination Agreement/Payment of Termination Fee”.

Background to the Arrangement

The provisions of the Business Combination Agreement are the result of arm’s length negotiations conducted among representatives of Lundin Mining and Tenke and their respective legal and financial advisors. The following is a summary of the background to the execution of the Business Combination Agreement.

In December 2005, preliminary discussions between Lundin Mining and Tenke took place regarding the possible business combination of the companies. Independent committees were formed by both companies, and financial advisors retained shortly thereafter. Discussions ended in March 2006 at the request of Lundin Mining because the Corporation decided to put a priority on the acquisition of EuroZinc Mining Corporation (“**EuroZinc**”).

Upon successful completion of the transaction with EuroZinc and after integration of EuroZinc's staff and assets had significantly progressed, Lundin Mining management indicated to Tenke in early January 2007 that it wished to proceed with a possible business combination.

On January 31, 2007, Lundin Mining and Tenke entered into a confidentiality agreement and began to exchange confidential, non-public information regarding their respective businesses.

On February 21, 2007, the Board of Directors formed the Special Committee, comprised of independent directors, to consider a business combination of Tenke (after the transfer of the South American Assets and US\$5 million to Suramina) and Lundin Mining. The Special Committee is comprised of Messrs. Edgar, Mullen and O'Reilly. The Special Committee appointed Mr. Edgar as Chairman. None of these individuals is a director and/or officer of Tenke or owns any Tenke Shares.

On February 21, 2007, the Special Committee retained Blake, Cassels & Graydon LLP to act as legal advisors to the Special Committee and on February 23, 2007 engaged GMP Securities to render an opinion as to fairness of the Arrangement, from a financial point of view, to Lundin Mining Shareholders.

Between March 27, 2007 and April 10, 2007, the Special Committee met formally on four occasions with, when appropriate, its legal and financial advisors to review and discuss the terms and merits of the proposed business combination, including the financial analysis being undertaken by GMP Securities, and the draft Business Combination Agreement. In addition, members of the Special Committee met with management and its financial advisors on several further occasions to receive updates on the progress of negotiations, the status of the financial analysis and the progress of due diligence. During such meetings the members of the Special Committee provided management with guidance and instructions on matters relating to the Arrangement.

In its meeting of March 27, 2007, the Special Committee discussed its mandate generally and received a presentation from legal counsel as to the legal duties and responsibilities of the Special Committee. The Special Committee also ratified the appointment of, and received an initial presentation from, GMP Securities.

In retaining GMP Securities, the Special Committee concluded, based in part on representations made by GMP Securities, that GMP Securities was independent of Tenke and was qualified to provide a fairness opinion with respect to the Arrangement.

On March 29, 2007 the Special Committee reviewed a presentation received by management, which outlined the critical terms of the Arrangement. The Special Committee also discussed the previous presentation by GMP Securities. At such meeting the Special Committee, based on the advice provided to date by GMP Securities and after consultation with its legal advisors and a thorough review of other matters, concluded that it would recommend to the Board of Directors that management be authorized to continue to negotiate the Arrangement on the terms presented by management.

Between March 29, 2007 and April 5, 2007 members of the Special Committee reviewed the proposed terms of the Business Combination Agreement and received updates on the progress of the negotiations.

On April 5, 2007 the terms of the Business Combination Agreement were discussed further by the Special Committee. The Special Committee was informed that legal and technical due diligence had been completed satisfactorily. GMP Securities provided an update on its financial presentation at such meeting following which a discussion ensued. At such meeting the Special Committee concluded that discussions should continue.

At a meeting of the Special Committee held on April 10, 2007, the Special Committee received advice from its financial and legal advisors on the terms of the Business Combination Agreement. At such meeting GMP Securities confirmed orally the conclusions of the GMP Fairness Opinion. The Special Committee unanimously resolved to accept the GMP Fairness Opinion and determined that the Arrangement is fair to, and in the best interests of, the Lundin Mining Shareholders. The Special Committee further concluded that it would recommend that the Board of Directors approve the Business Combination Agreement and recommend that the Lundin Mining Shareholders vote in favour of the Share Issue Resolution.

On February 16, 2007, the Tenke Board formed the Tenke Independent Committee, comprised of independent directors, to consider and discuss a potential transfer by Tenke of its South American Assets to a newly incorporated subsidiary and the subsequent business combination of Tenke and Lundin Mining. The Tenke Independent Committee is comprised of Lee A. Graber and Mats Carlsson.

On February 19, 2007, the Tenke Independent Committee authorized the retention of DuMoulin Black LLP to act as legal advisor to the Tenke Independent Committee, and of Dundee Securities Corporation (“**Dundee Securities**”) to act as financial advisor. Dundee Securities was engaged by the Tenke Independent Committee pursuant to an engagement agreement dated February 28, 2007 as amended on April 4, 2007 to render to the Tenke Independent Committee an opinion as to the fairness of the Arrangement, from a financial point of view, to the Tenke Minority Shareholders.

In late February 2007 Tenke commenced due diligence investigations of the property and business of Lundin Mining.

On or about April 10, 2007, the Tenke Independent Committee, with the assistance of its legal counsel, settled the terms of a definitive Business Combination Agreement with Lundin Mining.

On April 10, 2007, the Tenke Independent Committee received the oral opinion of Dundee Securities to the effect that, as of April 10, 2007, based on and subject to various assumptions, matters considered and limitations, the Arrangement was fair, from a financial point of view to the Tenke Minority Shareholders. Following discussion and consideration of a variety of factors, including without limitation, the opinion of Dundee Securities, the results of due diligence and the terms of the Business Combination Agreement, the Tenke Independent Committee resolved to recommend the proposed transaction to the Tenke Board on certain terms.

On April 10, 2007, the Tenke Board met to receive the report of the Tenke Independent Committee and to review the definitive Business Combination Agreement. Following a presentation of the Tenke Independent Committee and delivery of the oral opinion by Dundee Securities that the Arrangement is fair, from a financial point of view, to the Tenke Minority Shareholders, the Tenke Board unanimously (with Lukas Lundin, William Rand and John Craig abstaining) authorized Tenke to enter into the Business Combination Agreement, the final version of which was executed by Tenke on April 10, 2007.

On April 10, 2007, the Board of Directors met to receive the report of the Special Committee, to receive the GMP Fairness Opinion and to review the definitive Business Combination Agreement. Following a presentation of the Special Committee and delivery of the written GMP Fairness Opinion, the Board unanimously (with Lukas Lundin, William Rand and John Craig abstaining) authorized Lundin Mining to enter into the Business Combination Agreement, the final version of which was executed by the Corporation on April 10, 2007, and resolved to recommend that the Lundin Mining Shareholders vote in favor of the Share Issue Resolution.

Reasons for the Arrangement and Recommendation of the Board of Directors

The Board of Directors believes that the Arrangement will have the following benefits for the Lundin Mining Shareholders:

- (a) The transaction will result in Lundin Mining owning a 24.75% interest in the Tenke Fungurume Project, one of the world's richest and largest new copper projects. The Tenke Fungurume Project adds a mining property to the existing Lundin Mining asset base which has a significant mine life, reserves and resources. Less than half of the Tenke Fungurume Project concessions have been explored, numerous surface copper outcroppings have yet to receive drilling and exploration upside potential is widely considered to be outstanding.
- (b) The transaction will significantly increase both the production and geological resource profile of Lundin Mining and will reduce the Corporation's cost profile for copper production.
- (c) Tenke has more than 10 years experience in Katanga Province and special knowledge of properties and opportunities in Katanga Province, one of the richest under-developed copper regions in the world. The ownership position in the Tenke Fungurume Project combined with the technical, political and administrative skills coming with the acquisition will provide the Corporation with unique exposure to other exploration opportunities in the Democratic Republic of Congo and other areas in the region.
- (d) The combined company will have a market capitalization of approximately \$5.3 billion (based on the closing price of the Lundin Mining Shares on the TSX on April 10, 2007), which Lundin Mining expects will entice its profile and desirability with institutional investors, which in turn will lead to increased liquidity for all Lundin Shareholders.
- (e) Tenke has approximately \$100 million in cash reserves, which will be added to Lundin's existing cash reserves. Under Tenke Fungurume Project current financing plans, this cash reserve will satisfy Lundin Mining's obligations to the project, which essentially enables Lundin Mining to acquire its stake in a major copper project under construction without any immediate cash burden on the Corporation as the Tenke Fungurume Project proceeds towards first copper production scheduled for late 2008/early 2009.
- (f) The combined company will have a strong balance sheet with US\$412.3 million (before taking into account the proposed Rio Narcea transaction) in cash and short-term investments as at March 31, 2007 and a strong operating cash flow to facilitate the Corporation's aggressive growth strategy.
- (g) The Tenke Fungurume Project will not tax the Corporation's existing management resources, as the project will be managed by Freeport-McMoRan Copper & Gold Inc.

The Board of Directors has unanimously approved the Share Issue Resolution and unanimously recommends that the Lundin Mining Shareholders vote IN FAVOUR of the Share Issue Resolution at the Meeting. In recommending that the Lundin Mining Shareholders vote in favour of the Share Issue Resolution, the Board of Directors, after consultation with its advisors and receiving the recommendation of the Special Committee, considered, among other things, the expected benefits of the Arrangement as well as the following factors:

- (a) the financial analysis provided by GMP Securities to the Special Committee and the Board of Directors and the GMP Fairness Opinion that, as of April 10, 2007, the Arrangement is fair, from a financial point of view, to the Lundin Mining Shareholders;
- (b) information provided in respect of Tenke with respect to its assets and properties;
- (c) information provided in respect of Tenke (other than the South American Assets) with respect to its historical and current financial condition, business and operations; and
- (d) the anticipated size and market liquidity of Lundin Mining subsequent to the Arrangement.

Fairness Opinion

On April 10, 2007, GMP Securities delivered its verbal report to the Board of Directors to the effect that, as of such date, the Arrangement was fair, from a financial point of view, to the Lundin Mining Shareholders. GMP Securities subsequently delivered the GMP Fairness Opinion, which concludes that, based upon and subject to the factors referred to therein, as of April 10, 2007, the Arrangement was fair, from a financial point of view, to the Lundin Mining Shareholders.

In arriving at its opinion GMP Securities reviewed and relied upon, among other things, the following:

- (a) the draft business combination agreement between the Corporation and Tenke dated April 10, 2007;
- (b) audited consolidated financial statements of the Corporation and Tenke as at, and for the years ended December 31, 2004, December 31, 2005 and December 31, 2006;
- (c) unaudited consolidated interim financial statements of the Corporation and Tenke from the period ended March 31, 2004 up to and including the period ended September 30, 2006;
- (d) management's discussion and analysis of financial condition and results of operations of the Corporation and Tenke for the financial year ended December 31, 2006;
- (e) published research and industry reports for the Corporation and Tenke and for the worldwide base metal mining industry;
- (f) public information relating to the business, operations, financial performance and stock trading history of the Corporation and Tenke and other selected public companies considered by GMP Securities to be relevant;
- (g) the Tenke Fungurume NI 43-101 Resource Statement dated May 2006;
- (h) the Rothschild Preliminary Information Memorandum dated October 2006;
- (i) the Phelps Dodge – Tenke Fungurume Project Overview dated November 2006;
- (j) the Minproc/PD Draft Tenke Fungurume Feasibility Study dated November 17, 2006;
- (k) Tenke's Financing Cost and Margin Analysis dated January 23, 2007;

- (l) the Tenke Revised Financing Plan dated January 2007;
- (m) public filings submitted by the Corporation and Tenke to securities commissions or similar regulatory authorities in Canada;
- (n) public information with respect to other transactions of a comparable nature considered by GMP Securities to be relevant;
- (o) a representation letter dated April 10, 2007 provided to GMP Securities by senior management of Lundin Mining;
- (p) discussions with senior officers and directors of Lundin Mining;
- (q) financial models of the Corporation and Tenke provided by their management; and
- (r) such other corporate, industry and financial market information, investigations and analyses as GMP Securities considered necessary or appropriate in the circumstances.

In preparing the GMP Fairness Opinion, GMP Securities relied upon, and assumed the completeness, accuracy and fair presentation of all financial and other information, data, advice, opinions and representations acquired by it from public sources or information provided to it by Lundin Mining and Tenke. GMP Securities did not attempt to independently verify the completeness, accuracy or fair presentation of such information, data, advice, opinions or representations.

Also in connection with the preparation of the GMP Fairness Opinion, GMP Securities made assumptions with respect to industry performance, general business, market and economic conditions and other matters. GMP Securities received fees for its services, none of which were dependent on the results of its opinion or the completion of the Arrangement.

GMP Securities believes that its analyses must be considered as a whole and that selecting portions of its analyses or the factors considered by GMP Securities, without considering all factors and analyses together, could be misleading. Accordingly, the complete text of the GMP Fairness Opinion, which sets forth the assumptions made, matters considered and limitations on the review undertaken in connection with the opinion is attached to this Circular as Schedule C. The GMP Fairness Opinion addresses only the fairness of the Arrangement from a financial point of view and is not and should not be construed as a valuation of Tenke, Lundin Mining or any of their respective assets or securities or a recommendation to any Lundin Mining Shareholder as to whether to vote in favour of the Share Issue Resolution.

Lundin Mining Shareholders are urged to, and should, read the GMP Fairness Opinion in its entirety.

Principal Steps of the Arrangement

Subject to the conditions in the Business Combination Agreement being satisfied or waived, Tenke will apply to the Court for the Final Order approving the Plan of Arrangement under the provisions of section 192 of the CBCA.

On the Effective Date and commencing at the Effective Time, subject to the provisions of the Plan of Arrangement, the following shall occur and be deemed to occur without any further act or formality:

- (a) the authorized capital of Tenke will be amended by redesignating the Tenke Shares as Class B shares and the Articles of Tenke shall be deemed to be amended accordingly and each certificate representing an outstanding Tenke Share shall, as and from the time such redesignation is effective, represent a Class B share;
- (b) the authorized capital of Tenke will be amended by the creation of an unlimited number of Class A shares and the Articles of Tenke shall be deemed to be amended accordingly;
- (c) Tenke will transfer the South American Assets and US\$5.0 million cash to Suramina and, in consideration therefor, Suramina will issue to Tenke, as fully paid and non-assessable, that number of Suramina shares equal to the number of Tenke Shares issued and outstanding immediately before the Effective Time, other than Tenke Shares held by Dissenting Shareholders;
- (d) each issued Class B share, other than those held by Dissenting Shareholders, will be exchanged with Tenke for one Class A share and one Suramina share acquired by Tenke and the certificates representing the outstanding Tenke Class B shares of Tenke shall thereafter represent Class A shares of Tenke;
- (e) each issued Tenke Class B share held by Dissenting Shareholders (for greater certainty, being Tenke Shareholders who have duly complied with the Dissent Rights and are ultimately entitled to be paid for their dissenting shares) will be acquired by Tenke in consideration for Tenke agreeing to pay the amount to be paid in respect of the dissenting shares;
- (f) the Class B shares will be cancelled;
- (g) each issued Class A share will be transferred to Lundin Mining in consideration of 1.73 Lundin Mining Shares and \$0.001 in cash;
- (h) each Tenke Stock Option outstanding immediately before the Effective Date will be exchanged for a New Lundin Mining Option pursuant to which the holder of the Tenke Stock Option will be entitled to receive, upon exercise of the New Lundin Mining Option, that number of Lundin Mining Shares which the holder would have been entitled to receive as a result of the transactions contemplated by the Plan of Arrangement if, immediately prior to the Effective Time, such holder had been the registered holder of the number of Tenke Shares to which such holder was therefore entitled upon exercise of the Tenke Stock Option. Except as otherwise agreed to by Lundin Mining and the holders of Tenke Stock Options, the term to expiry, conditions to and manner of exercising, vesting schedule, the status under applicable laws, and all other terms and conditions of each New Lundin Mining Option will otherwise be unchanged from those contained in or otherwise applicable to the related Tenke Stock Option. Each Tenke Stock Option which, by its terms, would expire up to 90 days after the holder of such option ceased to be eligible to hold options under the Tenke Stock Option Plan, will be deemed to have been amended to provide that such option shall not expire until 180 days after the optionee ceased to be eligible to hold options under the Tenke Stock Option Plan;
- (i) Suramina will redeem its outstanding Class A shares for \$0.001 per share and such shares will be cancelled;
- (j) no fractional Lundin Mining Shares will be issued in connection with the exchange but rather Tenke Shareholders entitled to a fractional Lundin Share will receive cash in lieu thereof; and
- (k) Lundin Mining will become the holder of all Class A shares.

The Plan of Arrangement is attached as Schedule B to the Circular. Readers are encouraged to carefully review the Plan of Arrangement, as it contains the specific terms and conditions governing the Arrangement.

Effect of the Arrangement

Immediately following the Effective Date, Tenke will be a wholly owned Subsidiary of Lundin Mining and Lundin Mining will own Tenke's interest in the Tenke Fungurume Project.

Assuming that there are 60,199,829 Tenke Shares outstanding as at the Effective Time (which assumes that no Tenke Options are exercised prior to such time) and that no Tenke Shareholder exercises Dissent Rights, Lundin Mining will issue approximately 104,145,704 Lundin Mining Shares upon the completion of the Arrangement (not including approximately 1,362,375 Lundin Mining Shares issuable upon the subsequent exercise of Tenke Options). Based upon the foregoing assumptions, upon the completion of the Arrangement, Former Tenke Shareholders will own approximately 26.67% of the then outstanding Lundin Mining Shares and Lundin Mining Shareholders will own approximately 73.33% of the then outstanding Lundin Mining Shares, on a non-diluted basis, and Former Tenke Shareholders will own approximately 26.75% of the then outstanding Lundin Mining Shares and Lundin Mining Shareholders will own approximately 73.25% of the then outstanding Lundin Mining Shares, on a fully diluted basis.

It is anticipated that, following the Arrangement, Paul K. Conibear, the current President and Chief Executive Officer of Tenke, will join Lundin Mining in a senior management position responsible for Lundin Mining's interest in the Tenke Fungurume Project and will also serve as President and Chief Executive Officer of Suramina.

Lock-Up Agreements

Lundin Mining has obtained lock-up agreements from all of the directors and senior officers of Tenke and each person, company or trust that has, to the actual knowledge of Tenke, based on public filings made pursuant to National Instrument 62-103 of the Canadian Securities Administrators: (i) direct or indirect beneficial ownership of; (ii) control or direction over; or (iii) a combination of direct or indirect beneficial ownership of an of control or direction over, securities of Tenke carrying more than 10% of the voting rights attached to all of Tenke's voting securities, whereby they have agreed:

- (a) to support the Arrangement and vote their Tenke Shares in favour of the Tenke Arrangement Resolution at the Tenke Meeting; and
- (b) not to tender or vote their Tenke Shares in favour of, or otherwise support or facilitate in their capacities as shareholders of Tenke, any Competing Proposal.

The obligations under the Tenke Lock-Up Agreements will terminate on the earlier of: (i) the date upon which the Arrangement is completed; (ii) the date upon which Lundin Mining and the locked-up persons and entities mutually agree to terminate the Tenke Lock-Up Agreement or Lundin Mining terminates the Tenke Lock-Up Agreement in its sole discretion; (iii) the date upon which Lundin announces it will not match a Superior Proposal; (iv) the Business Combination Agreement is terminated by Lundin Mining or Tenke in accordance with its terms; or (v) the Termination Date. The persons and entities who signed the Tenke Lock-Up Agreements hold approximately 21% of the issued Tenke Shares as at the date of this Circular.

Officers and directors of Lundin Mining who hold Lundin Mining Shares have entered into lock-up agreements with Tenke on similar terms.

Arrangement Risk Factors

In assessing the Share Issue Resolution, Lundin Shareholders should carefully consider the risks described in Tenke's Annual Information Form dated March 30, 2007 for the year ended December 31, 2006 and Lundin Mining's Annual Information Form dated March 31, 2007 for the year ended December 31, 2006, together with the other information contained in, or incorporated by reference in this Circular. Additional risks and uncertainties, including those currently unknown to or considered immaterial by Lundin Mining and Tenke, may also adversely affect the business of Lundin Mining following completion of the Arrangement. In particular, the Arrangement is subject to certain risks, including the following:

The Arrangement may not be completed

Each of Lundin Mining and Tenke has the right to terminate the Business Combination Agreement in certain circumstances. Accordingly, there is no certainty, nor can Lundin Mining provide any assurance, that the Business Combination Agreement will not be terminated by either party before the completion of the Arrangement. In addition, the completion of the Arrangement is subject to a number of conditions precedent, certain of which are outside the control of Lundin Mining and Tenke, including Lundin Mining Shareholders approving the Share Issue Resolution and Tenke Shareholders approving the Arrangement and required regulatory approvals being obtained by Tenke. There is no certainty, nor can Lundin Mining provide any assurance, that these conditions will be satisfied.

The issue of Lundin Mining Shares under the Arrangement and their subsequent sale may cause the market price of Lundin Mining Shares to decline.

As of May 18, 2007, approximately 286,327,696 Lundin Mining Shares were outstanding and an aggregate of 2,131,070 Lundin Mining Shares were reserved pursuant to outstanding options, warrants and rights to purchase or acquire Lundin Mining Shares. Lundin Mining currently expects that in connection with the Arrangement it will issue approximately 104,145,704 Lundin Mining Shares (calculated based on the issued Tenke Shares as at May 18, 2007) and reserve approximately 1,362,375 Lundin Mining Shares for issue on exercise or conversion of New Lundin Mining Options. The issue of these new Lundin Mining Shares and their sale and the sale of additional Lundin Mining Shares that may become eligible for sale in the public market from time to time could depress the market price for Lundin Mining Shares.

Lundin Mining may not realize the benefits currently anticipated due to challenges associated with integrating the operations, projects and personnel of Lundin Mining and Tenke and additional risks inherent in Tenke's operations.

The success of Lundin Mining following completion of the Arrangement will depend in large part on the success of management of Lundin Mining in integrating the operations, projects and personnel of Tenke with those of Lundin Mining after the Effective Date. The failure of Lundin Mining to achieve such integration could result in the failure of Lundin Mining to realize any of the anticipated benefits of the Arrangement and could impair the results of operations, profitability and financial results of the Corporation. In addition, the overall integration of the operations, projects and personnel of Tenke into Lundin Mining may result in unanticipated operational problems, expenses, liabilities and diversion of management's attention.

Also, Tenke's operations are located in the Democratic Republic of Congo and therefore Tenke is subject to different foreign investment risks than those to which Lundin Mining is subject. Mining investments are subject to the risks normally associated with the conduct of business in foreign countries, including various levels of political and economic risk. The existence or occurrence of one or more of the following circumstances or events could have a material adverse impact on Tenke's profitability or the viability of Tenke's affected foreign operations, which could have a material adverse effect on the future cash flows, earnings, results of operations and financial condition of Lundin Mining. These risks relating to doing business in foreign jurisdictions include, but are not limited to: uncertain or unpredictable political, legal or economic environments; delays in obtaining or the inability to obtain necessary governmental permits; labour disputes; invalidation of governmental orders; war, acts of terrorism and civil disturbances; changes in laws or policies of particular countries; taxation; government seizure of land or mining claims; limitations on ownership of property or mining rights; restrictions on the convertibility of currencies; limitations on the repatriation of earnings; and increased financing costs.

Conditions to Completion of the Arrangement; Effective Date

It is currently anticipated that the Effective Date for the Arrangement will be on or about July 3, 2007.

In order for the Arrangement to become effective, certain conditions must have been satisfied or waived, including without limitation, the following:

- (a) the Tenke Shareholders will have approved the Tenke Arrangement Resolution at the Tenke Meeting and, in particular, will have approved the Arrangement in accordance with the Interim Order;
- (b) the Lundin Mining Shareholders will have approved the Share Issue Resolution at the Meeting;
- (c) the Interim Order and the Final Order will have been granted;
- (d) the Lundin Mining Shares to be issued pursuant to the Arrangement will have been approved for listing on the TSX and the AMEX and the Swedish Depository Receipts relating to the Lundin Mining Shares to be issued in connection with the Arrangement will have been listed on the Stockholm Stock Exchange, in each case on the Effective Date or as soon as practicable thereafter;
- (e) the Suramina Shares to be issued pursuant to the Arrangement will have been approved for listing on the TSX or the TSX Venture Exchange, subject to official notice of issuance and other normal conditions on the Effective Date or as soon as practicable thereafter;
- (f) there will not have occurred any Material Adverse Change in the Lundin Mining Group or the Tenke Group;
- (g) the Lundin Mining Lock-up Agreements and the Tenke Lock-up Agreements will have been entered into by each of the Lundin Mining locked-up shareholders and each of the Tenke locked-up shareholders, respectively, and will not have been terminated or otherwise breached in any material manner; and
- (h) dissent Rights will have been exercised in respect of no more than 5% of the issued and outstanding Tenke Shares.

The Business Combination Agreement

The following is a description of certain material terms and conditions of the Business Combination Agreement in addition to those discussed elsewhere in this Circular. The full text of the Business Combination Agreement is available under the Corporation's profile on the SEDAR website at www.sedar.com.

Tenke's Covenants

Ordinary Course of Business

Tenke covenanted and agreed in the Business Combination Agreement, among other matters, to conduct and cause each Tenke Group Member to conduct its business only in the ordinary and usual course and use all reasonable efforts to preserve intact its business organizations and its existing relations with customers, suppliers, employees, and business associates.

Non-Solicitation

Tenke has also agreed in the Business Combination Agreement that it will not, directly or indirectly, solicit, initiate, or engage in discussions or negotiations with any person, encourage submission of any inquiries, proposals, or offers by, or take any other action intended or designed to facilitate the efforts of any person, other than Lundin Mining, relating to a Competing Proposal, or provide non-public information with respect to Tenke or any Tenke Group Member, or afford any access to the properties, books, or records of the same, to any person, that may wish to propose or pursue a Competing Proposal, provided, however, that in response to an unsolicited *bona fide* Competing Proposal, Tenke may: (A) furnish such information or access with respect to Tenke and the Tenke Group to the person making such Competing Proposal pursuant to a confidentiality agreement with such person that is no less restrictive than the Confidentiality Agreement; or (B) engage in discussions or participate in negotiations regarding such Competing Proposal, but in each case only if; (x) the Tenke Board determines in good faith, after consultation with outside counsel, that such action is necessary in order for the Tenke Board to act in a manner consistent with their fiduciary duties under applicable law; (y) the Tenke Board determines in good faith that the Competing Proposal could reasonably be expected to result in a Superior Proposal; and (z) Tenke complies with the Business Combination Agreement with respect to such proposal.

The Business Combination Agreement also provides that neither Tenke nor the Tenke Board nor any committee thereof will or will permit any Tenke Group Member to: (a) withdraw or modify, or propose to withdraw or modify, in a manner adverse to Tenke, their approval of the Arrangement, the Business Combination Agreement, the transactions contemplated by the Business Combination Agreement or the recommendation to vote in favour of the Tenke Arrangement Resolution; (b) approve or recommend, or propose to approve or recommend, any Competing Proposal; or (c) cause or permit any member of the Tenke Group or any of its subsidiaries to enter into any agreement, including an agreement in principle or letter of intent to effect a Competing Proposal.

Notwithstanding the foregoing, if Tenke has received a Superior Proposal, the Tenke Board may: (A) withdraw or modify its recommendation of the Tenke Arrangement Resolution; (B) approve or recommend a Superior Proposal; or (C) cause Tenke or any of its subsidiaries to enter into a transaction agreement to effect a Superior Proposal, but in each case only if: (x) the Tenke Board determines in good faith, after consultation with outside counsel, that such action is necessary in order for them to act in a manner consistent with their fiduciary duties under applicable law; and (y) Tenke will have furnished Lundin Mining with written notice at least four Business Days prior to the date any such actions are proposed to be taken specifying which actions are proposed to be taken and, after taking into account

modifications to the Business Combination Agreement proposed by Lundin Mining during such three Business Day period, such Competing Proposal would still constitute a Superior Proposal. If Tenke enters into an agreement to implement a Superior Proposal, it will be required to pay the Termination Fee to Lundin Mining. If Lundin Mining makes a proposal to amend the Business Combination Agreement to increase the consideration payable to the Tenke Shareholders pursuant to the Arrangement, such that the Competing Proposal is no longer a Tenke Superior Proposal, Tenke and Lundin Mining will execute such documents to give effect to such proposal and Tenke will not enter into the Competing Proposal.

The Tenke Board may withdraw, modify, qualify or change its recommendation to Tenke Shareholders in respect of the Tenke Arrangement Resolution or from making any disclosure to the Tenke Shareholders prior to the Effective Date if, in the good faith judgment of the Tenke Board after consultation with outside counsel, such action is necessary for the Tenke Board to act in a manner consistent with its fiduciary duties under applicable law or is otherwise required under applicable laws, provided that in the case of any proposal in respect of any such withdrawal, modification, qualification or change which does not relate to a Competing Proposal or a Superior Proposal, and except as may be necessary for the Tenke Board to act in accordance with its fiduciary duties, not less than 48 hours before the Tenke Board considers any proposal in respect of any such withdrawal, modification, withdrawal qualification or change, Tenke will give Lundin Mining written notice of such proposal and promptly advise Lundin Mining of the proposed consideration of such proposal.

Termination of Business Combination Agreement/Payment of Termination Fee

The Business Combination Agreement may be terminated at any time prior to the Effective Time, whether before or after approval of the Share Issue Resolution by the Lundin Mining Shareholders:

- (a) by mutual written consent of Lundin Mining and Tenke;
- (b) by Lundin Mining or Tenke if there has been a breach of any of the representations, warranties, covenants and agreements on the part of the other set forth in the Business Combination Agreement, which breach has or is likely to result in the failure of the conditions set forth in the Business Combination Agreement and in each case has not been cured within 10 business days following receipt by the breaching party of notice of such breach from the non-breaching party;
- (c) by either Lundin Mining or Tenke if any permanent order, decree, ruling or other action of a court or other competent authority restraining, enjoining or otherwise preventing the consummation of the Arrangement will have become final and non-appealable;
- (d) by Lundin Mining if:
 - (i) Tenke or the Tenke Board, or any committee thereof, withdraws or modifies in a manner adverse to Lundin Mining, its approval of the Business Combination Agreement or its recommendation to vote in favour of the Tenke Arrangement Resolution or approves or recommends a Competing Proposal or resolves to do any of the foregoing; or
 - (ii) Tenke or any of its affiliates will have entered into a transaction agreement to effect a Competing Proposal; or
 - (iii) the Arrangement is not approved by the Tenke Shareholders in accordance with the Interim Order.

If Lundin Mining terminates the Business Combination Agreement in the circumstances described in (a) or (b) above, Tenke is required to pay the Termination Fee to Lundin Mining, unless the change in recommendation referred to in (a) is made as a consequence of a “corporate action” taken by Lundin Mining and Tenke so notifies Lundin Mining at the time of the change in recommendation. In these circumstances, no Termination Fee is payable. The type of Lundin Mining corporate actions that would provide Tenke with the right to deliver a notice are the entry into material transactions (e.g., acquisitions, incurrence of debt), changes in corporate startup and changes in accounting policies).

- (a) by Tenke if:
 - (i) Lundin Mining or the Lundin Mining Board or any committee thereof withdraws their approval of the Business Combination Agreement or recommendation to vote in favour of the Share Issue Resolution, or resolves to do so; or
 - (ii) the Arrangement is not approved by the Tenke Shareholders in accordance with the Interim Order;
- (b) by Tenke if Tenke or any Tenke Group Member enters into an agreement to effect a Competing Proposal in a manner permitted by the Business Combination Agreement, provided that Tenke concurrently pays Lundin Mining the Termination Fee;
- (c) by Tenke if: (i) Lundin Mining amends the terms of the offer to acquire all of the shares and warrants of Rio Narcea by increasing or changing the form of the consideration payable thereunder; and (ii) the Tenke Board determines, in good faith, that if the offer to acquire all of the shares and warrants of Rio Narcea is completed on such amended terms, completing the Arrangement will no longer be in the best interests of Tenke or is no longer fair, from a financial point of view, to the holders of Tenke Shares;
- (d) by Tenke or Lundin Mining if the Share Issue Resolution is not approved by the Lundin Mining Shareholders at the Meeting, and in the case of such termination by Lundin Mining, Lundin Mining will be required to pay Tenke the sum of \$3.0 million to compensate Tenke for the termination of its rights under the Business Combination Agreement;
- (e) by Lundin Mining if any of the Tenke Lock-Up Agreements have been terminated or otherwise breached in any material manner by any of the Tenke locked-up shareholders, such that it is clear that as a result of such breach or termination such Tenke locked-up shareholder will not vote all of its Tenke Shares in favour of the Tenke Arrangement Resolution;
- (f) by Tenke if any of the Lundin Mining Lock-Up Agreements have been terminated or otherwise breached in any material manner by any of the Lundin Mining locked-up shareholders, such that it is clear that as a result of such breach or termination such Lundin Mining locked up shareholder will not vote all of its Lundin Mining Shares in favour of the Share Issue Resolution;

- (g) by Lundin Mining or Tenke if the Arrangement is not completed by the Termination Date provided that the party then seeking to terminate the Business Combination Agreement is not then in default of any of its obligations thereunder; and
- (h) by Lundin Mining if Tenke has breached the provisions of the Business Combination Agreement prohibiting the solicitation of a Competing Proposal in a material manner.

Amendment and Termination of The Plan of Arrangement

The Plan of Arrangement may be amended, modified and/or supplemented as follows:

- (a) Lundin Mining and Tenke may amend, modify and/or supplement the Plan of Arrangement at any time and from time to time prior to the Effective Date, provided that any such amendment, modification and/or supplement must be contained in a written document which is: (i) agreed to by each of Lundin Mining and Tenke pursuant to the Business Combination Agreement; (ii) filed with the Court and, if made following the Tenke Meeting, approved by the Court; and (iii) if so required by the Court, communicated to Tenke Shareholders in the manner required by the Court.
- (b) Any amendment, modification or supplement to the Plan of Arrangement may be proposed by Lundin Mining or Tenke at any time prior to or at the applicable shareholders' meeting, with or without any prior notice or communication, and if so proposed and accepted by the persons voting at the applicable meeting (other than as may be required under the Interim Order), will become part of the Plan of Arrangement for all purposes.
- (c) Any amendment, modification and/or supplement to the Plan of Arrangement that is approved by the Court following the Meeting will be effective only if: (i) it is agreed to by each of Lundin Mining and Tenke pursuant to the Business Combination Agreement; and (ii) if required by the Court, is consented to by Tenke Shareholders voting in the manner directed by the Court.
- (d) Any amendment, modification and/or supplement to the Plan of Arrangement may be made by Lundin Mining and Tenke after the Effective Date without the approval of the holders of Lundin Mining Shares or Tenke Shares provided that: (i) it is agreed to by the parties pursuant to the Business Combination Agreement; and (ii) it concerns a matter which, in the reasonable opinion of Lundin Mining and Tenke, is of an administrative or ministerial nature required to better give effect to the implementation of the Plan of Arrangement and is not materially adverse to the financial or economic interests of the holders of Lundin Mining Shares or Tenke Shares.

At any time up until the time the Final Order is made, but subject to the Business Combination Agreement, Tenke and Lundin Mining may mutually determine not to proceed with the Plan of Arrangement or to terminate the Plan of Arrangement notwithstanding any prior approvals given at the Meeting or the Tenke Meeting.

The Plan of Arrangement will automatically terminate and be of no further force and effect upon the termination of the Business Combination Agreement in accordance with its terms.

Expenses of the Arrangement

Each of Tenke and Lundin Mining will pay its own expenses incurred in connection with the transactions contemplated by the Business Combination Agreement.

Stock Exchange Listings

The TSX has conditionally approved the listing of the Lundin Mining Shares to be issued and reserved in connection with the Arrangement, subject to Lundin Mining fulfilling all of the requirements of the TSX. The Lundin Mining Shares to be issued and reserved in connection with the Arrangement will also be listed on the AMEX.

After completion of the Arrangement, Lundin Mining will use its best efforts to cause to be filed and receipted by the Swedish Central Securities Depository and the SSE, the Lundin Mining Shares that are issued to Tenke Shareholders as part of the Arrangement. This will enable Tenke Shareholders who receive Lundin Mining Shares, to convert such Lundin Mining Shares into Swedish Depositary Receipts that can then trade on the SSE.

OTHER MATTERS

It is not known whether any other matters will come before the Meeting other than those set forth above and in the Notice of Meeting, but if any other matters do arise, the persons named in the Proxy intend to vote on any poll, in accordance with their best judgment, exercising discretionary authority with respect to amendments or variations of matters set forth in the Notice of Meeting and other matters which may properly come before the Meeting or any adjournment of the Meeting.

Composition of the Human Resources / Compensation Committee

During the fiscal year ended December 31, 2006, the Human Resources / Compensation Committee was comprised of Messrs. Lundin, O'Reilly, Mullen and Charter, all of whom, with the exception of Mr. Lundin, are and were during the year "independent" within the meaning of *National Instrument 58-101 Disclosure of Corporate Governance Practices* ("NI 58-101") of the Canadian Securities Administrators. The Human Resources and Compensation Committee will be reconstituted by the Board following the Meeting.

Report on Executive Compensation

The Human Resources / Compensation Committee is responsible for recommending to the Board the annual salary, bonus and other benefits, direct and indirect, of the Chief Executive Officer and to approve the compensation for the Corporation's other executive officers after considering the recommendations of the Chief Executive Officer, all within the Committee's mandate and other human resources and compensation policies and guidelines approved by the Board. It is the responsibility of the Human Resources and Compensation Committee to ensure management compensation is competitive to enable the Corporation to continue to attract individuals of the highest calibre.

Compensation for executive officers is composed primarily of two components; namely, base salary and participation in the Corporation's stock option plan. Base salary is determined largely by reference to market conditions, while incentive stock option awards provide the opportunity for enhanced share value based upon performance and the overall success of the Corporation in any given year. The Corporation places strong reliance on stock options in terms of the total compensation of its executive officers in keeping with overall compensation trends in the Canadian industry and in order to conserve the Corporation's cash.

The Human Resources / Compensation Committee does not have a pre-determined, performance-based compensation plan but rather reviews the performance of the executive officers at the end of each fiscal year. The Corporation's compensation structure is designed to reward performance and to be competitive with the compensation arrangements of other Canadian resource companies of similar size and scope of operations. The Committee considers a variety of factors when determining both compensation policies and programs and individual compensation levels. These factors include the long-term interests of the Corporation and its shareholders, overall financial and operating performance of the Corporation and the Board's assessment of each officer's individual performance, contribution towards meeting corporate objectives, responsibilities, length of service and levels of compensation provided by industry competitors. When determining the compensation of the Chief Executive Officer, the Committee will assess the performance of the Chief Executive Officer in light of the corporate goals and objectives established by the Board.

The Human Resources / Compensation Committee believes that the salary and bonus paid to the Chief Executive Officer and each other executive officer during the last fiscal year was commensurate with his position, his experience and salaries paid by comparable companies. In considering comparable companies, the Committee considered, among other things, the industry in which the Corporation operates, the competitive landscape for hiring executives within this industry, the public nature of the Corporation, the market capitalization of the Corporation and the responsibilities of the particular

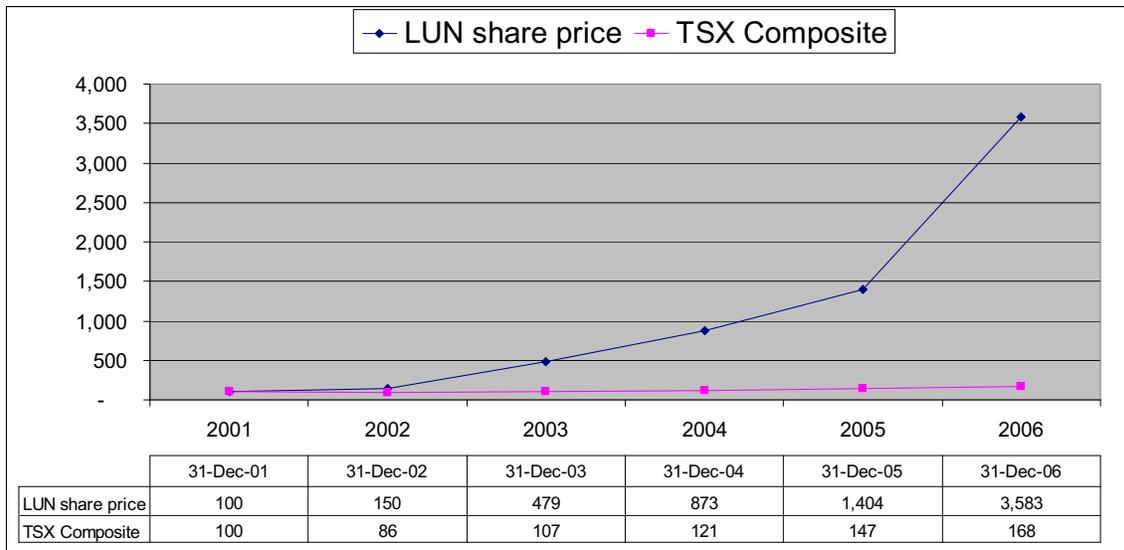

executive officer.

The compensation paid to Messrs. Waplan, Haker, Carrêlo and O’Brien for the fiscal year ending December 31, 2007 was increased by the Board in February 2007 and the terms of new executive employment agreements are currently being negotiated. In addition, in May 2007 the Company entered into an employment arrangement with Wojtek A. Wodzicki, who would be a Named Executive Officer had he had been employed by the Corporation as at December 31, 2006. Options were last granted to one Named Executive Officer on May 11, 2006 See “Options & SARs Granted to Named Executive Officers”.

Compensation of Directors

The Chairman of the Board receives annual remuneration in the amount of \$200,000. Each non-executive director receives annual remuneration of \$75,000 (paid in monthly installments) but does not receive any stock options. Non-executive Board members who are also members of a Board Committee

receive \$1,000 per meeting. The Chairman of the Audit Committee also receives annual remuneration of \$10,000 and the Chairman of each of the other Board Committees receive annual remuneration of \$5,000.

Namdo Management Services Ltd. (“**Namdo**”), a private corporation owned by Mr. Lukas H. Lundin of Vancouver, British Columbia, Chairman and a director of the Corporation, was paid or accrued the sum of \$216,000 during the fiscal year ended December 31, 2006, plus reimbursement of out-of-pocket expenses at cost. Namdo has approximately 12 employees and provides administration and financial services to a number of public companies in exchange for management fees in varying amounts. Mr. Lundin is paid compensation by Namdo; however, there is no basis for allocating the amounts paid by Namdo to Mr. Lundin as he is not receiving such compensation primarily in respect of his personal services provided to the Corporation.

During the most recently completed financial year, an amount of approximately \$650,000 was paid to the law firm of Cassels Brock & Blackwell LLP, of which Mr. John H. Craig, a director of the Corporation, is a partner, for legal services rendered to the Corporation.

No other director was compensated either directly or indirectly by the Corporation and its Subsidiaries during the most recently completed financial year for services as consultants or experts.

The Stockholm Stock Exchange does not permit the granting of incentive stock options to non-executive directors. Accordingly, no directors and officers, other than certain of the Named Executive Officers, were granted stock options during the last fiscal year of the Corporation.

The following table sets forth each option exercised during the most recently completed financial year by directors of the Corporation (excluding the Named Executive Officers) and the financial year end value of unexercised options on an aggregated basis. Except as noted in the following table, no directors of the Corporation exercised options during, or held options at the end of, the most recently completed financial year.

Name	Securities Acquired on Exercise (#)	Aggregate Value Realized ⁽¹⁾ (\$)	Unexercised Options/SARs at Fiscal Year End		Value of Unexercised in-the-Money Options/SARs at Fiscal Year End ⁽²⁾	
			Exercisable (#)	Unexercisable (#)	Exercisable (\$)	Unexercisable (\$)
Dale Peniuk	-	-	142,800	-	596,904	-
David F. Mullen	-	-	68,544	-	828,430	-
Donald Charter	-	-	142,800	-	741,608	-

Notes:

- (1) “Aggregate Value Realized” is calculated by determining the difference between the market value of the securities underlying the options or SARs at the date referred to and the exercise price of the options or SARs and is not necessarily indicative of the value (i.e. loss or gain) actually realized by the directors.
- (2) “In-the-Money Options” means the excess of the market value of the Corporation’s shares on December 31, 2006 over the exercise price of the options. The closing price of the Corporation’s shares as at December 29, 2006 (ie. the last trading day of the fiscal year) was \$14.33 per share, post-split.

CORPORATE GOVERNANCE

Board Governance

The Board of Directors has the responsibility for the overall stewardship of the conduct of the business of the Corporation and the activities of management. Management is responsible for the day-to-day conduct of the business. The Board's fundamental objectives are to enhance and preserve long-term shareholder value, and to ensure the Corporation meets its obligations on an ongoing basis and that the Corporation operates in a reliable and safe manner. In performing its functions, the Board considers the legitimate interests that its other stakeholders, such as employees, customers and communities, may have in the Corporation. In overseeing the conduct of the business, the Board, through the Chief Executive Officer, sets the standards of conduct for the Corporation.

The Board operates by delegating certain of its authorities to management and by reserving certain powers to itself. The Board retains the responsibility for managing its own affairs including selecting its Chair, nominating candidates for election to the Board and constituting committees of the Board. Subject to the Articles and By-Laws of the Corporation and the CBCA, the Board may constitute, seek the advice of and delegate powers, duties and responsibilities to committees of the Board.

A copy of the mandate of the Board of Directors is attached at Schedule D to the Circular.

Composition of the Board

The Board of Directors is currently comprised of ten (10) directors, the majority of whom are "independent" directors within the meaning of NI 58-101. A director is "independent" if he is independent of management and has no direct or indirect relationship with the Corporation which could, in the view of the Board, be reasonably expected to interfere with the exercise of the member's independent judgment.

The Board has considered the relationship of each director to the Corporation. At the end of the recently completed financial year, two of the Corporation's directors were not considered to be independent. Messrs. Lundin and Benner were not independent because of their management positions with the Corporation. Messrs. Rand, Edgar, Charter, Craig, Mullen, Peniuk and O'Reilly are all independent directors. John H. Craig periodically provides legal services to the Corporation, but is considered to be independent because of the size of his fees for such services relative to the overall fee income of his practice. If elected at the Meeting, Mr. Karl-Axel Waplan will not be considered independent because of his position as President and Chief Executive Officer of the Corporation.

At the end of the most recently completed financial year, neither the Chairman and Vice Chairman of the Board were considered to be independent within the meaning of NI 58-101. The Board has instituted a practice, however, whereby at the conclusion of each regularly scheduled meeting of the Board of Directors, the Corporation's independent directors have an in-camera session at which non-independent directors and members of management are not in attendance.

Between January 1, 2006 and December 31, 2006, the Board of Directors and its committees held the following number of meetings:

Board of Directors.....	16
Audit Committee.....	5
Corporate Governance and Nominating Committee.....	0

Position Descriptions

The Board has adopted a written position description for each of the Chairman, Vice-Chairman, Chief Executive Officer, Chief Financial Officer and the chair of each Board committee.

Orientation and Education

The Corporation provides new directors with an orientation program upon joining the Corporation that includes copies of relevant financial, technical, geological and other information regarding its properties and Subsidiaries as well as meetings with management.

Board members are encouraged to communicate with management and auditors, to keep themselves current with industry trends and development, and to attend related industry seminars. Board members have full access to the Corporations records.

Ethical Business Conduct

The Board has adopted a formal written Code of Conduct and Ethical Values Policy (the “**Code of Conduct**”) for its directors, officers and employees.

Individuals governed by the Code of Conduct are required to disclose in writing all business, commercial or financial interests or activities which might reasonably be regarded as creating an actual or potential conflict with their duties. Individuals must avoid all situations in which their personal interests conflict or might conflict with their duties to the Corporation or with the economic interest of the Corporation. All business transactions with individuals, corporations or other entities that could potentially, directly or indirectly, be considered to be a related party, must be approved by the Board of Directors regardless of the amount involved.

Directors, officers and employees are encouraged to report violations of the Code of Conduct on a confidential and, if preferred, anonymous basis, in accordance with the complaints procedure set out in the Code of Conduct or the Corporation’s whistleblower procedures. The Audit Committee may request special treatment for any complaint, including the involvement of the Corporation’s external auditors or outside counsel or other advisors. All complaints are required to be documented in writing by the person(s) designated to investigate the complaint, who shall report forthwith to the Chair of the Audit Committee.

On an annual basis, or otherwise upon request from the Board of Directors, the Code requires the Chair of the Audit Committee to prepare a written report to the Board summarizing all complaints received during the previous year, all outstanding unresolved complaints, how such complaints are being handled, the results of any investigations and any corrective actions taken.

A copy of the Corporation's Code of Conduct and Ethical Values Policy may be obtained by any securityholder of the Corporation free of charge by contacting the Corporate Secretary at Suite 2101, 885 West Georgia Street, Vancouver, British Columbia, Canada, V6C 3E8.

Audit Committee

The principal purpose of the Audit Committee is to ensure that the Corporation's management has designed and implemented an effective system of internal financial controls, to review and report on the integrity of the consolidated financial statements of the Corporation and to review the Corporation's compliance with regulatory and statutory requirements as they relate to financial statements, taxation matters and disclosure of material facts on financial and tax related matters.

The Corporation has adopted a formal written mandate for the Audit Committee. The mandate provides that the committee shall consist of at least three members of the Board, all of whom shall be "independent" within the meaning of Multilateral Instrument 52-110 *Audit Committees*, ("MI 52-110"). MI 52-110 provides that a member of an audit committee is "independent" if the member has no direct or indirect relationship with the issuer, which could, in the view of the issuer's board of directors, reasonably interfere with the exercise of the member's independent judgment. During the most recently completed financial year, the committee was composed of three (3) directors: Messrs. Dale C. Peniuk, Donald Charter and William A. Rand, all of whom are and were independent.

The Audit Committee meets a minimum of four times a year, including to review the annual financial statements prior to their submission to the Board. The Audit Committee has direct communication channels with internal personnel responsible for financial statement preparation and with the Corporation's external auditors. The committee may also engage independent counsel or other advisors at the expense of the Corporation, all as it considers to be necessary or advisable in order to perform its duties and responsibilities.

Additional information relating to the Audit Committee, including a copy of the Audit Committee mandate, is provided in Item 10 of the Corporation's Annual Information Form for the year ended December 31, 2006, a copy of which may be obtained on the SEDAR website at www.sedar.com.

Human Resources / Compensation Committee

The principal purpose of the Human Resources / Compensation Committee is to implement and oversee human resources and compensation policies approved by the Board of Directors of the Corporation. The duties and responsibilities of the committee include, without limitation, the following:

- (a) to recommend to the Board human resources and compensation policies and guidelines for application to the Corporation;
- (b) to ensure that the Corporation has in place programs to attract and develop management of the highest calibre and a process to provide for the orderly succession of management;
- (c) to review and approve corporate goals and objectives relevant to the compensation of the Chief Executive Officer and, in light of those goals and objectives, to recommend to the Board the annual salary, bonus and other benefits, direct and indirect, of the Chief Executive Officer and to approve compensation for all other designated officers of the Corporation, after considering the recommendations of the Chief Executive Officer, all within the human resources and compensation policies and guidelines approved by the Board.

The Corporation has adopted a formal written mandate for the Human Resources / Compensation Committee. The mandate provides that the committee shall consist of at least three members of the Board, a majority of whom shall be “independent” within the meaning of NI 58-101. During the most completed financial year, the committee members were Messrs. Lundin, Charter, Mullen and O’Reilly, all of whom, with the exception of Mr. Lundin, are and were independent.

The Board appoints the members of the committee for the ensuing year at its organizational meeting held in conjunction with each annual general meeting of the Lundin Mining Shareholders. The Board may at any time remove or replace any member of the committee and may fill any vacancy in the committee.

The Human Resources / Compensation Committee meets regularly each year on such dates and at such locations as the Chair of the committee determines. The committee has access to such officers and employees of the Corporation and to such information respecting the Corporation and may engage independent counsel or advisors at the expense of the Corporation, all as it considers to be necessary or advisable in order to perform its duties and responsibilities.

Corporate Governance and Nominating Committee

The principal purpose of the Corporate Governance and Nominating Committee is to provide a focus on corporate governance that will enhance corporate performance, and to ensure on behalf of the Board of Directors and Shareholders that the Corporation’s corporate governance system is effective in the discharge of its obligations to the Corporation’s stakeholders. The duties and responsibilities of the Corporate Governance and Nominating Committee include, without limitation, the following:

- (a) to develop and monitor the Corporation’s overall approach to corporate governance issues and, subject to approval by the Board, to implement and administer a system of corporate governance which reflects superior standards of corporate governance practices;
- (b) to report annually to the Corporation’s shareholders, through the Corporation’s annual management proxy circular or annual report to shareholders, on the Corporation’s system of corporate governance and the operation of its system of governance;
- (c) to analyze and report annually to the Board the relationship of each director to the Corporation as to whether such director is a related director or an unrelated director; and

to advise the Board or any of the committees of the Board of any corporate governance issues which the Corporate Governance and Nominating Committee determines ought to be considered by the Board or any such committee.

The Corporation has adopted a formal written mandate for the Corporate Governance and Nominating Committee. The mandate provides that the committee shall consist of at least three members of the Board, all of whom shall be “independent” within the meaning of NI 58-101. During the most completed financial year, the committee members were Messrs. Craig, Edgar, Mascall and Mullen, all of whom are and were independent.

The Board appoints the members of the committee for the ensuing year at its organizational meeting held in conjunction with each annual general meeting of the Lundin Mining Shareholders. The Board may at any time remove or replace any member of the committee and may fill any vacancy in the committee.

The Corporate Governance and Nominating Committee meets regularly each year on such dates and at such locations as the Chair of the committee determines. The committee has access to such officers and employees of the Corporation and to such information respecting the Corporation and may engage independent counsel and advisors at the expense of the Corporation, all as it considers to be necessary or advisable in order to perform its duties and responsibilities.

Environment, Safety and Health Committee

The principal purpose of the Environment, Safety and Health Committee is to review and monitor:

- (a) the environmental policies and activities of the Corporation on behalf of the Board of Directors; and
- (b) the activities of the Corporation as they relate to the health and safety of employees of the Corporation in the workplace.

The Corporation has adopted a formal written mandate for the Environment, Safety and Health Committee. As the Corporation is principally a holding company, the Environment, Safety and Health Committee is not responsible for compliance with the committee mandate by the Corporation's Subsidiaries or for review or monitoring of such activities, but is responsible to ensure that the directors and officers of its Subsidiaries have copies of the committee mandate and any amendments to it and adopt similar or more appropriate local procedures for use by the Subsidiaries in their operations and activities, to be monitored by the directors and officers of the Subsidiaries directly.

The committee mandate provides that the committee shall consist of at least three members of the Board, all of whom shall be "independent" within the meaning of NI 58-101. During the most completed financial year, the committee members were Messrs. Edgar, O'Reilly and Mascall, all of whom are and were independent.

The Board appoints the members of the committee for the ensuing year at its organizational meeting held in conjunction with each annual general meeting of the Lundin Mining Shareholders. The Board may at any time remove or replace any member of the committee and may fill any vacancy in the committee.

The Environment, Safety and Health Committee meets regularly each year on such dates and at such locations as the Chair of the committee determines. The committee has access to such officers and employees of the Corporation and to such information respecting the Corporation and may engage independent counsel and advisors at the expense of the Corporation, all as it considers to be necessary or advisable in order to perform its duties and responsibilities.

ARTICLE III THE ARRANGEMENT

3.1 Effectiveness

Subject to the terms of the Arrangement Agreement, this Plan of Arrangement will become effective in the sequence set out in Section 3.2 (except as otherwise provided therein) and will be binding from the Effective Time on: (i) Tenke; (ii) Suramina; and (iii) all registered and beneficial owners of Tenke Shares; (iv) all registered and beneficial holders of Tenke options; and (v) all registered and beneficial owners of Suramina Shares.

3.2 The Arrangement

On the Effective Date and commencing at the Effective Time, the following shall occur and be deemed to occur in the following order without further act or formality:

- (a) the authorized capital of Tenke will be amended by redesignating the Tenke Shares as Class B Shares and the Articles of Tenke shall be deemed to be amended accordingly and each certificate representing an outstanding Tenke Share shall, as and from the time such redesignation is effective, represent a Class B Share;
- (b) the authorized capital of Tenke will be amended by the creation of an unlimited number of Class A Shares and the Articles of Tenke shall be deemed to be amended accordingly;
- (c) Tenke will transfer the South American Assets and the Cash to Suramina and, in consideration therefor, Suramina will issue to Tenke, as fully paid and non-assessable, that number of Suramina Shares equal to the number of Tenke Shares issued and outstanding immediately before the Effective Time, other than Tenke Shares held by Dissenting Shareholders;
- (d) each issued Class B Share, other than those held by Dissenting Shareholders, will be exchanged with Tenke for one Class A Share and one Suramina Share acquired by Tenke in accordance with Section 3.2(c) and the certificates representing the outstanding Class B Shares of Tenke shall thereafter represent Class A Shares;
- (e) each issued Class B Share held by Dissenting Shareholders (for greater certainty, being Tenke Shareholders who have duly complied with the Dissent Rights and are ultimately entitled to be paid for their dissenting shares) will be acquired by Tenke in consideration for Tenke agreeing to pay the amount to be paid as determined in accordance with Article IV of this Plan of Arrangement in respect of the dissenting shares;
- (f) each issued Class B Share acquired in accordance Section 3.2(e) will be cancelled;
- (g) the stated capital of Tenke for the outstanding Class A Shares will be an amount equal to the stated capital of Tenke for the Class B Shares, less the fair market value of the Suramina Shares distributed to Tenke Shareholders, other than Dissenting Shareholders,

In addition each Tenke Stock Option which, by its terms, would expire 90 days after the holder of such option ceased to be eligible to hold options under the Tenke Stock Option Plan, shall be deemed to have been amended to provide that such option shall not expire until 180 days after the holder of such option ceased to be eligible to hold options under the Tenke Stock Option Plan;
- (k) Suramina will redeem its outstanding Class A Shares for \$0.001 per share and such shares will be cancelled;

ASSUMPTIONS AND LIMITATIONS

With the Corporation's Board of Directors' and Special Committee's approval, GMP has relied upon the completeness, accuracy and fair presentation of all of the financial and other information, data, advice, opinion or representations obtained by it from public sources or provided by the Corporation, its subsidiaries and the respective directors, officers, associates, affiliates, consultants, advisors and representatives thereof (collectively, the "Information"). The Opinion is conditional upon the completeness, accuracy and fair presentation of such Information. Subject to the exercise of professional judgement and except as expressly described herein, GMP has not attempted to verify independently the completeness, accuracy or fair presentation of any of the Information.

Senior officers of the Corporation have represented to GMP in the Certificate, among other things, that (i) the Information provided by the Corporation to GMP relating to the Corporation or the Transaction for the purpose of preparing this Opinion was, at the date the Information was provided to GMP, and is, except as has been disclosed in writing to GMP, complete, true and correct in all material respects, and did not and does not contain any untrue statement of a material fact (as such term is defined in the *Securities Act* (Ontario) (the "Act")) in respect of the Corporation or the Transaction or omit to state a material fact, necessary to make the Information not misleading in light of the circumstances under which the Information was made or provided; and (ii) since the dates on which the Information was provided to GMP, there has been no material change or new material fact which is of a nature as to render any portion of the Information untrue or misleading in any materially adverse respect, except for changes that have been updated by more current Information provided in writing to GMP.

GMP has assumed that all conditions precedent to the completion of the Transaction can be satisfied in the time required and that all consents, exemptions or orders of third parties and relevant authorities will be obtained, without adverse condition or qualification, and that the Transaction can proceed as scheduled and without material additional cost to the Corporation or liability of the Corporation to third parties, that the procedures being followed to implement the Transaction are valid and effective, that all required documents will be distributed to the shareholders of the Corporation in accordance with applicable laws and that the disclosure in such documents will be accurate and will comply with the requirements of applicable laws.

The Opinion is rendered on the basis of securities markets, economic, financial and general business conditions prevailing as at the date hereof and the condition and prospects, financial and otherwise, of the Corporation and its subsidiaries and affiliates, as they were reflected in the Information and as they have been represented to GMP in discussions with management of the Corporation. In its analyses and in preparing the Opinion, GMP made numerous assumptions with respect to industry performance, general business and economic conditions and other matters, many of which are beyond the control of GMP or any party involved in the Transaction.

The Opinion is not, and should not be construed as, a valuation of Lundin or Tenke, or any of the assets or securities thereof. Furthermore, the Opinion is not, and should not be construed as, advice as to the price at which shares of the Corporation (before or after completion of the Transaction) may trade at any future date.

The Opinion has been provided solely for the use of the Board of Directors of the Corporation and the Special Committee of the Board of Directors of the Corporation and may not be used by any other person or relied upon by any other person other than the Board of Directors of the Corporation without the express prior written consent of GMP. The Opinion is given as of the date hereof and GMP

disclaims any undertaking or obligation to advise any person of any change in any fact or matter affecting the Opinion that may come or be brought to GMP's attention after the date hereof. Without limiting the foregoing, in the event that there is any material change in any fact or matter affecting the Opinion after the date hereof, GMP reserves the right to change, modify or withdraw the Opinion.

GMP believes that its analyses must be considered as a whole and that selecting portions of the analyses or the factors considered by GMP, without considering all factors and analyses together, could create a misleading view of the process underlying the Opinion. The preparation of an opinion is a complex process and is not necessarily susceptible to partial analysis or summary description. Any attempt to do so could lead to undue emphasis on any particular factor or analysis. This Opinion is not to be construed as a recommendation to any holder of common shares of Lundin as to whether to vote in favour of the Transaction.

APPROACH TO FAIRNESS

In connection with the Opinion, GMP has performed a variety of financial and comparative analyses. In arriving at the Opinion, GMP has not attributed any particular weight to any specific analysis or factor, but rather have made qualitative judgements based on our experience in rendering such opinions and on the circumstances and information as a whole.

As part of its analysis, GMP predominantly utilized the discounted cash flow approach combined with certain balance sheet items to produce a net asset value approach. Moreover, GMP utilized to a lesser extent other conventional financial methodologies that included a historical trading analysis and market comparable analysis as well as precedent transaction analysis. GMP also performed sensitivity analyses with respect to commodity prices, interest rates and other metrics it deemed appropriate.

CONCLUSION

Based on and subject to the foregoing and such other factors as GMP considered relevant, GMP is of the opinion that, as of the date hereof, the Transaction is fair, from a financial point of view, to the Lundin Shareholders.

Yours very truly,

GMP SECURITIES L.P.
